Tobacco Free Institute- A Way Forward To Smoke Free Education

Tobacco use is the single largest cause of preventable deaths and illness worldwide and kills half of its users prematurely, in their most productive age. Consistent with the idiom of "Prevention is better than cure", the GHRCEM has taken various measures for both prevention of initiation of tobacco use among the children and youth, and for providing cessation service. It is imperative that we take all possible measures to curb the use of tobacco among students at a very young and impressionable age, in order to combat the menace of tobacco addiction. To create awareness among children about harms due to tobacco use, GHRCEM invited Mr. Satishsing Rajpur, PI MIDC Police Station, Nagpur for guiding our student. Sir has informed student about the harms and health effects of tobacco, importance of a healthy and tobacco-free environment in educational institutions and causes of preventable deaths and diseases in India. The event was successfully conducted by Prof. Rahul suryawanshi under the guidance of Dr. Vivek Kapur, Director GHRCEM, Nagpur
