Accelerated Degree Programme (ADP) Awareness Session in GHRCEMN, Nagpur

An awareness session on the Accelerated Degree Programme (ADP) was successfully organized for first-year students on 6th and 7th February 2026. The session was conducted by Dr. Swati Dixit, Dean Academics, with the objective of familiarizing students with the newly introduced flexible learning framework in higher education. Total 536 no of students attended the session.

During the session, Dr. Swati Dixit elaborated on the concept and benefits of the Accelerated Degree Programme, which enables students to complete their undergraduate degrees in a shorter duration by earning additional academic credits per semester. She highlighted that such programmes have been introduced under the guidelines of the University Grants Commission to provide flexibility and cater to diverse learning abilities of students. As per recent educational reforms, students can complete a three- or four-year degree earlier than the standard duration while maintaining the same academic requirements and credit structure.

The session also focused on the advantages of ADP, including early entry into the workforce, reduced academic duration, and enhanced opportunities for pursuing higher studies. Students were informed about eligibility criteria, credit requirements, and the process of opting for the programme.

An interactive discussion followed the presentation, where students actively participated and clarified their doubts regarding workload, academic planning, and career implications. Dr. Dixit encouraged students to make informed decisions based on their academic capabilities and career goals.

The awareness session proved to be highly informative and beneficial, helping first-year students understand the scope and significance of accelerated learning pathways in modern education.
