First Year Engineering Department

Report on the Alumni Interaction Session by Mr. Amey Jangde

As part of the First-Year Induction Programme **Prarambh 25**, an inspiring Alumni Interaction session was conducted by **Mr. Amey Jangde**, Founder of Z Transform Media. The session was attended by around 165 students and faculty members, who were eager to hear from a successful alumnus of the institution.

Mr. Jangde shared his journey from being an engineering student to becoming an entrepreneur. He highlighted the importance of perseverance, creativity, and continuous learning in building a career path aligned with one's passion. By narrating real-life challenges and experiences, he motivated the students to think innovatively and explore opportunities beyond conventional boundaries. His words encouraged the first-year students to believe in themselves and make the best use of resources provided during their academic journey.

On this occasion, Mr. Amey Jangde was felicitated by Dean First Year, **Dr. Manjusha Aware**, in appreciation of his valuable contribution to motivating young minds. The event was skillfully anchored by **Mrs. Sanjeevani Bakale**, Communication Skills Trainer, who maintained excellent engagement throughout the session.

We sincerely thank Director **Dr. Vivek Kapur** for his vision and constant encouragement in facilitating such impactful interactions. Special recognition is also due to the student volunteer team, whose enthusiastic support ensured smooth conduction of the programme.
