Technical Session

Payal Bharti

Vision

Our aim is to impart excellent education and to develop technical skills which help to enhance their confidence to take the challenges of upcoming technologies in Civil Engineering and inculcate the culture of social responsibility.

Mission

- **MD1 :** To provide a conducive teaching – learning environment that nurtures conceptual understanding, critical thinking, and lifelong learning among Civil Engineering students.
- **MD2 :** To promote professional ethics, leadership qualities, teamwork, and continuous professional development through industry interaction and experiential learning.
- **MD3 :** To nurture competent and skilled Civil Engineering graduates with strong technical knowledge and research orientation to address social and infrastructural challenges.

Programme Educational Objectives (PEOs)

The educational programme objectives of the civil engineering program are designed to produce skilled engineers who are ready to contribute effectively to the advancement of civil engineering profession and are ready to handle the challenges of the profession.

They shall be able to:

PEO-I : To prepare students to succeed in employment / profession and / or to pursue post graduate and research educations in Civil Engineering in particular and allied Engineering discipline in general.

PEO-II: To provide students with a solid foundation in mathematical, scientific and engineering fundamentals required to formulate, analyse and solve engineering problems requiring knowledge of Civil Engineering.

PEO-III : To prepare students with engineering breadth to analyse and design to contribute in providing solutions related to multi disciplinary real-life problems.

PEO-IV: To inculcate in students professional and ethical attitude, effective communication skills and teamwork to become successful professionals.

PEO-V: To provide students with an academic environment that makes them aware of excellence and lifelong learning in emerging technologies.

Program Outcomes

1. **Engineering Knowledge :** apply to the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
2. **Problem analysis :** identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using principles of mathematics, natural sciences, and engineering sciences.
3. **Design / development of solutions :** design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
4. **Conduct investigations of complex problems:** use research- based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.

5. **Modern tool usage:** create, select, and apply appropriate techniques, resources, and modern engineering and it tools including prediction and modeling to complex engineering activities with an understanding of the limitations.
6. **The Engineer And Society:** Apply Reasoning Informed By Contextual Knowledge To Assess Societal, Health, Safety, Legal And Cultural Issues, And The Consequent Responsibilities Relevant To Professional Engineering Practice.
7. **Environment And Sustainability:** Understand The Impact of Professional Engineering Solutions In Societal And Environmental Contexts, And Demonstrate The Knowledge of, And Need For Sustainable Development.
8. **Ethics :** Apply Ethical Principles And Commit To Professional Ethics And Responsibilities And Norms Of Engineering Practice.
9. **Individual And Team Work :** Function Effectively As An Individual, And As A Member Or Leader In Diverse Teams, And In Multi disciplinary Settings.
10. **Communication :** Communicate Effectively On Complex Engineering Activities With The Engineering Community And With Society At Large, Such As, Being Able To Comprehend And Write Effective Reports And Design Documentation, Make Effective Presentations, And Give And Receive Clear Instructions.
11. **Project Management And Finance:** Demonstrate Knowledge And Understanding Of The Engineering And Management Principles And Apply These To One' S Own Work, As A Member And Leader In A Team, To Manage Projects And In Multidisciplinary Environments
12. **Life-long Learning:** Recognize The Need For And Have The Preparation And Ability To Engage In Independent and Life- Long Learning In The Broadest Context of Technological Change.

Program Specific Outcomes (PSO)

PSO1 : To enhance the technical ability in planning, analysis, design and maintenance in the field of civil engineering to become a competent & professional Civil Engineer.

PSO2 : To enhance the technical skills for dealing and execute the various advanced technologies in Civil Engineering.

PSO3 : To enhance the quality of material to be used in the field of civil engineering as an eco-friendly material.

Forum Installtion

The department of Civil Engineering, G H Raisoni College of Engineering and Technology has organized the CIVISTA student forum installation for B.Tech 3rd, 5th, and 7th semester student of civil department. the forum was installed under the valuable guidance of Dr. Vivek Kapur Sir (Director), Dr. Mahesh Raut sir (HOD of Civil Department) and Forum In charge Mr. Aniket Dahasahastra.

Chief Guest of program Dr. Sandeep Shirkhedkar sir (Director, ImaGIS Engineering Solutions Pvt Ltd, Nagpur) has elaborated the importance of student forum and active participation in activities for dynamic progress of students. Mr. Aniket Dahasahastra has congratulated all forum bearers and guided them to conduct activities under forum.

CIVISTA - Futsal Event

FUTSAL EVENT was held on 13TH October 2023 from 10:30 am 5:00 pm at G H Raisoni Institute of Engineering and Technology.

Under this event, there are total 16 teams from them 8 teams are qualify for next round. 4 teams were played for semifinal whoever win the game that team was went for finals. From these 2 teams the team which goaled more that team was winner and another one is runner up.

Aryan Meshram and Rupen Gotmareare the winners.

CIVISTA - Sold Out Event

SOLD OUT EVENT was held on 13th October 2023 from 11:30 am to 3:30 pm. Students had participated in the groups; 2 students were mandatory in each group. There were 9 teams in total, with 2 members in each team, making a total of 18 participants. There are 1 round, In this event we are providing some materials to each team with their amount which they must sell the material in campus. The primary objective of the event was to encourage creativity, teamwork, and entrepreneurial skills among the students. Teams showcased their sales and marketing skills, using innovative strategies to attract potential buyers. Various materials ranging from handmade crafts to tech gadgets were available, demonstrating the diversity of entrepreneurial ideas. Students displayed their creativity by designing eye-catching posters and advertisements to promote their products.

CIVISTA - Snake & Ladder Event

SNAKE & LADDER EVENT was held on October 28, 2023, from 11.30 am to 2.00 pm. The event was successfully organized by CIVISTA forum (Department of Civil Engineering). The event was held on the institute's badminton court, providing an engaging and enjoyable experience for all participants.

The Snake & Ladder event was a resounding success. Participants, including students, faculty, and staff, gathered on the badminton court, creating a vibrant and competitive atmosphere. The event provided a break from the routine academic activities, fostering a sense of community within the department.

Content Beyond Syllabus on Practical Report on topic "To Determine Soundness of Cement by using Le-Chateliar Apparatus

To Determine Soundness of Cement by using Le-Chateliar Apparatus" for 3th semester A2 Batch Practical students on 14- Aug-2023 for the subject "Concrete Technology". The student found the practical very interesting. Students were able to understand the concept and application of Soundness of Cement for practical field & application for Civil Engineering construction purpose.

The practical was very informative for the students. total of A2 Batch Roll No. 21 to 40 student out of 13 has attended and highly appreciated the practical.

Content Beyond Syllabus on 'Analysis of Portal Frames by Flexibility Method'

Content Beyond Syllabus on "Analysis of Portal Frames by Flexibility Method" was conducted by Ms. Monika Jain for the subject Advanced Structural Analysis (UCEL 402) for 4th-year (Sec A and B) on 07th September 2023 in offline mode in regular lectures slots at 208 and 209 respectively. A total of 55 students has attended this class.

The students are familiar with the analysis of beams with the flexibility method. This Lecture commenced with an Introduction to the portal frame analysis with the flexibility method, and later design problems based on the Flexibility method taking into consideration the different loading and boundary conditions that were solved.

Content Beyond Syllabus on Application of Diversion Head and River Training Works in Water Resource Engineering

As part of the Hydrology course (3rd semester). The lecture was held on October 10, 2023, from 1:15 PM to 2:10 PM and was delivered by Mr. Ashok Amgoth, Assistant Professor at GHRIT, Nagpur.

It was previously mentioned that the main permanent canal, which constitutes the primary component of a direct irrigation scheme, originates not from a diversion weir or a barrage, but rather from rivers. The arrangements at the inception of these permaxnent canals are so well designed that they guarantee a constant and uninterrupted water supply to the canal, even during periods of low flow. The structures constructed at the head of the canal to divert river water towards the canal, ensuring a regulated & continuous supply of silt-free water with a certain minimum head, are known as Diversion Head Works.

Content Beyond Syllabus on Idealization of Practical RC Buildings for Structural Analysis and Design

Under the course of Reinforced Concrete Design (UCEL 301) on 12th October 2023, Time: 4.40 PM to 5.35 PM, delivered by Mr. P. L. Kurmi.

Various failure mechanism of RC structures under earthquakes and their components, idealization of structural systems for structural analysis and design, various analysis and design problems faced by practicing engineers have been explained during the lecture. Total 64 UG students have attended the lecture and appreciated the lecture.

Flip teaching on Design Discharge for irrigation Crops

The Subject teacher of Civil Engineering conducted a Flip teaching on "Design Discharge for irrigation Crops" for 5th Semester B. Tech students on 21st August 2023.

The Lecture commenced with the Introduction about the Irrigation and calculation of discharge for different crops, later design problems based on the water requirement taken considering the losses from canal and reservoir. Notes related to design steps and criteria were given to students two days before the day of flip teaching. Students were asked to solve the design problems based on data and previous examples.

Flip Teaching on "Flexibility Method"

Flip teaching on "Flexibility Method" was conducted by Ms. Monika Jain for the subject Advanced Structural Analysis (UCEL 402) for 4th-year (Sec A and B) 24th and 25th August 2023 in offline mode at 208 & 209 respectively.

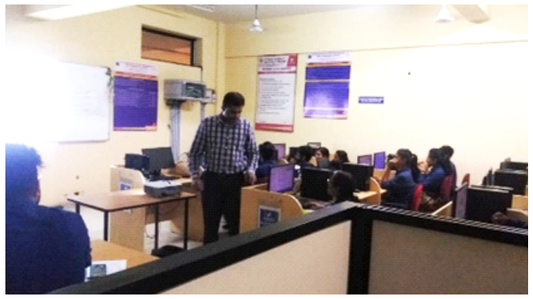

The Lecture commenced with an Introduction about the Flexibility Method, and later design problems based on the Flexibility method taking into consideration the different loading and boundary conditions. Notes related to design steps & criteria were given to students two days before the day of flip teaching. Students were asked to solve the design problems based on data & previous examples.

Workshop on BIM

Workshop on 'BIM' was conducted on 24th July 2023 from 4.30 PM – 6.30 PM at the G.H.Raisoni Institute of Engineering and Technology, Nagpur, With help of 'Astral Informatics Pvt Ltd' Institute Ms. Priyanka Kawale, & Ms. Anjali Khote was the instructor.

The event was a success. We reached our goal to train students to use BIM. It is an achievement for Civil Department. Overall, the feedback we received was overwhelmingly positive, with 100 percent of participants commenting favorably on the experience.

One-day skill training on “Non-Destructive Test”

The Department of Civil Engineering, GHRIET, Nagpur organized a Skill Training Programme (Hands-on practice-under MOU) on "Non-Destructive Test" for second year students of section A dated on 09/09/2023 by expert Mr. M. V. Gabhane and Mr. Shubham Shahu from “Mrudashish Structural Consultant Pvt. Ltd, Nagpur”.

All students of 3rd semester attended skill training programme. Overall, the session was excellent. The students can understand an instrument that uses in modern structural analysis and in structural audit which is beneficial for the students of Civil Engineering.

One-day skill training on “Total Station”

The Department of Civil Engineering, GHRIET, Nagpur organized a Skill Training Programme (Hands-on training) on "Total Station" for direct second year (DSY) students of section A dated on 21/10/2023 (Time: 2:00pm to 3:00pm)] by expert Mr. Suresh Bhoyar from Saitech Precise Instrumentation Solutions, Nagpur.

All DSY students of 3rd semester attended skill training programme. Overall, the session was excellent. The students are able to understand an instrument that uses in modern surveying and building construction which is beneficial for the students of Civil Engineering.

Guest Lecture on “Advances in Roads and Bridges”

Guest Lecture on “Advances in Roads and Bridges” was conducted by Department of Civil Engineering for Final year students on 27th October 2023 on online mode through the Webex platform. The speaker was Dr. Atul Desai, Professor, SVNIT, Surat. Sir has a total of 40 years of teaching experience.

Konstruct
Magazine

Basically, the lecture was conducted for the subject of Advance Structural Analysis on the topic “Advances in Roads and Bridges” Organized by Ms. M. R. Jain (Assistant Professor, Civil Department). A total of 90 students attended this guest lecture. Ms. M.R. Jain gives a vote of thanks for this event.

Guest Lecture on “BIM-360 in Construction Management”

Guest Lecture on “BIM-360 in Construction Management” conducted by Department of Civil Engineering for fourth year students 0n 16th October 2023 on online mode through webex platform. The speaker was Dr. Vasudha katare, Assistant Professor, NICMAR, Pune. She has a total 5 years of teaching experience.

Basically, the lecture conducted on subject Project Planning and Analysis on the topic “BIM-360 in Construction Management” Organized by Prof. Aniket V. Dahasahstra under the guidance of Dr. Mahesh Raut (HOD of civil Department).

4-Days Skill Training Programme on “REVIT Architecture Software”

Skill Training on “REVIT Architecture software” conducted by Department of Civil Engineering for Final year students on 27, 29, 31 July and 1 August 2023 By CADD Centre Nagpur.

The event was a successfully conducted and students are trained to use REVIT. Overall, the feedback we received was over whelming positive, with 100 percent of participants commenting favourably on the experience. REVIT is a building information modelling software tool for architects, landscape architects, structural engineers, mechanical, electrical, and plumbing engineers, designers and contractors.

Technical Lecture on "Civil Software and Internships"

Technical Lecture on "CIVIL SOFTWARES AND INTERNSHIPS" conducted by Department of Civil Engineering for 4th-year and 3rd-year students on 1st August 2023 in offline mode at Eklavya Hall (203). The speaker was Mr. Rishikesh Tantak, Engineer at Civil Engineering Software Academy, Pune.

The Speaker covered all the essential information in Civil Engineering Software by highlighting the importance of internships. Students actively participated in the entire session.

Additionally, Bentley certification has been given to each student.

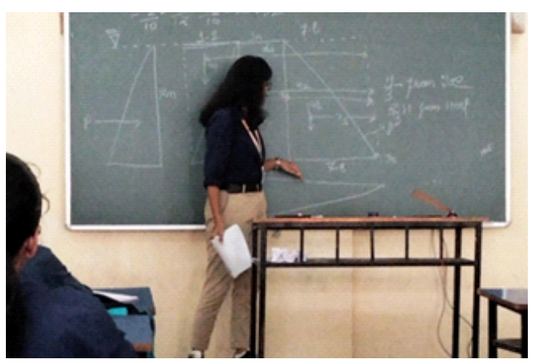

Peer teaching on "Analysis of Gravity Dam"

The Subject teacher of Civil Engineering conducted a Peer teaching on "Analysis of Gravity Dam" deliver by Ms. Falguni Gangne for 5thSemester B.Tech students on 19th October 2023 in offline mode in classroom 207.

The Lecture commenced with the Introduction about the Reservoir or dam structure, different types of dams, difference between gravity and earthen dam were discussed, later design problems on the gravity dam with upstream side inclined was taken explaining the calculation of major forces acting on gravity dam, Factor of safety against overturning, sliding and shear was calculated.

Normal stress, shear stress and Principal stresses at toe and heel were calculated considering inclination on both upstream and downstream side.

Site Visit Report on "Gosekhurd Dam"

Gosekhurd Dam, organized by the Civil Engineering Department of G H Raisoni Institute of Engineering and Technology (GHRIET), Nagpur, which took place on the 21st of October 2023. The site visit to Gosekhurd Dam was an enriching experience for the students of GHRIET. Gosekhurd Dam, located in the Bhandara district of Maharashtra, stands as an impressive structure. The dam plays a pivotal role in the region's water resource management, providing water for irrigation, drinking, and industrial purposes. The dam, constructed across the Waingangā River, has a substantial storage capacity and plays a crucial role in mitigating floods and ensuring water supply during dry periods.

Site visit at kanhan Water Traetment Plant

Site visit was conducted on 16th October 2023 from 12 PM -3.00 PM at kanhan Water Treatment Plant, Nagpur.

The visit was a success. We reached our goal having students being able to learn about water supply and treatment processes. Overall, the feedback we received was overwhelmingly positive, with 100 percent of participants commenting favorably on the experience. Plant In charge Engineers guided the students in detail.

Subject In charge Ms Abhilasha Deshmukh and Mr Ashok Amgoth accompanied the students during visits, Total 54 students benefited from those visits.

Site Visit to "Vishnu Vaibhav Building, Akashvani Square Nagpur

The Department of Civil Engineering organized a Site Visit to "Vishnu Vaibhav Building, Akashvani Square Nagpur" for 7th semester B. Tech. students on 21st Oct. 2023. The Visit was Guided by Mr. Ketan mase, Structural Designer and Director of Mase Associates Pvt. Ltd. Nagpur.

The site visit was commended by Ms. Deepa Telang and Mr. P. L. Kurmi. The primary objective of this visit was to learn about building repair, rehabilitation & retrofitting, involving various tests and assessments to evaluate the structural stability of the building. This audit was executed with utmost diligence and precision, and the gathered data forms the basis of this report.

College Dance Club Inauguration and Dance Competition

The event was held on 13th September 2023 from 12.00 PM at the Poly auditorium of G H Raisoni Institute of Engineering & Technology, Nagpur.

The inauguration of the BEATS Dance Club followed by a dance competition, was a resounding success. It was initiated with the aim of promoting dance as an art form, providing a platform for talented dancers, and fostering a sense of community among dance enthusiasts.

The event began with a grand inauguration ceremony. Dignitaries like Dr. Arvind Mahalle sir, Prof. Anupam Choubey sir, Prof. Sudhir Juware sir and Special Guest of event Choreographer Mr. Chetan Dashmukhe, judge Mr. Anmol Ganer sir were invited to light the ceremonial lamp & deliver inspiring speeches.

3 Days Campus Recruitment Training

Department of Civil Engineering, GHRIET, Nagpur organized three days Campus Recruitment Training from 09/10/2023 to 11/10/2023 for final year students of section A and B, from 10:30 am to 12:30 pm. The expert for the training was Tushar Muley sir and Alok Joshi sir from Training and Placement department RGI. The Overall 65 students take the benefits of this training from section A and B. The session was excellent. The students are able to understand resume writing, company requirements, skill development, and importance of industrial training which is beneficial for the students in placements in Civil Engineering companies.

Parent Teacher Meet

The Department of Civil Engineering, G H Raisoni Institute of Engineering and Technology organized the Parent Teacher Meet for B.Tech students of Civil Engineering Department on 28th Sept 2023 at 11:30 AM (Venue: Eklavya Hall).

The meeting was started with warm welcome of respected parents by HOD Civil Engineering. Later the parents were introduced to re

spective class teachers and other subject teachers. The meeting was focused on detailed discussion on attendance, progress and CAE marks of respective ward. The class teacher explained and showed F4 sheets and its importance to the parents. Mr. Aniket Dahasahastra (PTM In charge) collected undertaking and feedback forms of parents regarding instructiveness of students with faculty member. The meeting was concluded with tea and snacks for the parents.

Float on-Konstruct

On January 17th, 2024, G.H Raisoni Institute of Engineering and Technology organized the captivating event "Float On." Geared towards testing participants' observational and analytical prowess, the event centered around constructing a prototype of a floating module.

"Float On" provided a unique platform for students to apply theoretical knowledge and hands-on skills in a real-world context. Assembling buoyant materials and designing a stable structure demanded meticulous planning and execution.

Human Ludo Event

THE HUMAN LUDO EVENT was held on 16th February 2024 from 11:30 am to 4:30 pm. Under this event, Students had participated in the groups, 4 students were mandatory in each group. There are 2 rounds; in the first round 20 boxes are plotted on badminton court. Out of which some boxes are safe, & in some boxes, there are different types of tasks which had to be performed by the team member.

A total of 20 Groups (80 Students) participated in the event to make it more interesting & fun.

CIVISTA FORUM

Find The Bug Competition

This event was held on 19th January 2024 from 12-5 PM. The event was successfully conducted by the department of Civil Engineering. We reached our goal of having a great competition in the event of Find the Bug Competition and we were excited about welcoming student volunteers. Overall, the feedback we received was overwhelmingly positive, with 100 percent of participants commenting favorably on the experience.

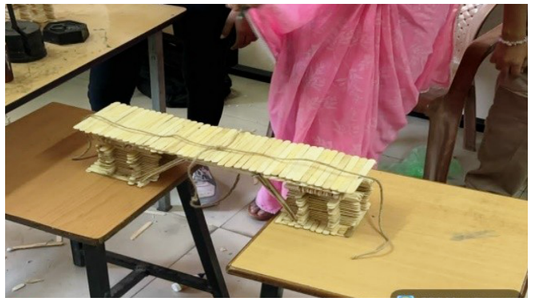

Konstruct

Bridge Making Competiton

On the 16th of February 2024, the Civil Engineering dept. hosted an intriguing event titled " BRIDGE MAKING COMPETITION." The competition aimed to test engineering skills and creativity. The Bridge Making Competition took place on 16 February 2024 with great enthusiasm and participation from 04 teams. The competition aimed to test the engineering skills, creativity, and problem-solving abilities of the participants in designing and constructing bridges using limited resources.

Tresure Hunt

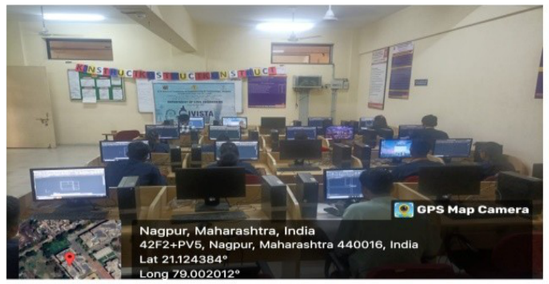

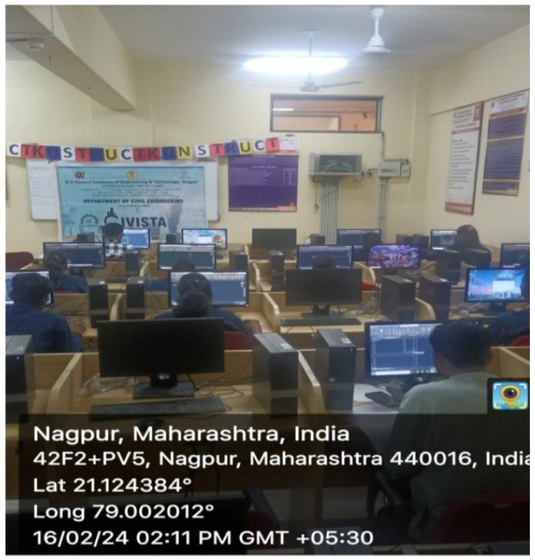

The Treasure Hunt event held by Civil Engineering department was an exhilarating and intellectually stimulating inter-departmental affair. From 12:00 PM to 5:00 PM, students and faculty alike were immersed in a series of challenges, puzzles, and clues that tested their problem-solving skills and teamwork. Toal 26 groups from various department participated, each group had 4 members which makes it 104 participants. Mr Umar Shaikh and team was the 1st winner while Shivanshi Modak and team from 6th semester Civil Department were Runner-up of the event.

Cadance

CADANCE was held on 16th of February 2024 from 2:00pm - 6:00pm. The event was inaugurated by Honorable Director Sir, Deans and HOD's of different Departments.

Skill Training

Staad Pro

Skill training on “Staad Pro” was conducted by the Department of Civil Engineering for third-year students on 20th January 2024 in offline mode at MAS Lab (B-210). The speaker was Ms. Priyanka Kawale, Astral Informatics. Madam has a total of 3 years of software teaching-learning experience. The Skill Training Program was organized by Ms. M. R. Jain.

AutoCAD Software

The Department of Civil Engineering, organized a Four-Day Skill Training Program (Hands-on training) on "AutoCAD Software" for second year students of section A dated on 15/01/2024 & 16/01/2024 (Batch-1) and 17/01/2024 & 18/01/2024 (Batch-2) (Time: 10:15 am to 12:15pm) by the trainer Mr. Vikky Chavhan from Pyramid Designer, Nagpur.

All students of 4th semester attended the Skill Training Program. Overall, the session was excellent. The students can develop an architectural plan and learn other features of AutoCAD software which is beneficial for the students of Civil Engineering.

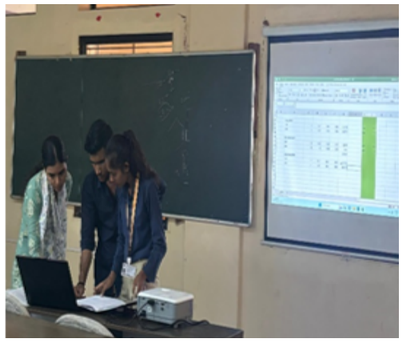

Content Beyond Syllabus

Estimate of residential building using MS Excel

Content Beyond Syllabus was conducted by Dr. Monika Jain for the subject 'Estimating and Costing' for 3rd-year (Sec A) on 27th February 2024 in offline mode in regular lectures slots at B-2-03. A total of 55 students attended this class. Students have learned to use MS Excel for estimating residential building estimates and inputting variables for accurate calculations. Excel's functions allow for systematic analysis, adapting to market fluctuations for improved accuracy. It also enables the generation of reports and visual representations, aiding informed decision-making in construction projects.

G 20 Summit

Lecture was conducted on 22nd March 2024 for 6th Sem Civil Engineering Students From 12.20 PM to 1:15 PM, The topic discussed in the lecture was 'G-20 SUMMIT HELD IN NAGPUR INDIA'. Students were curious about the preparations and changes in Nagpur city which they experienced last year, on this background it was great opportunity to make them aware about the agenda and outcomes of the G-20 MEET and its relationship with Environmental protection. Overall session was great and enriching experience for the students. Total 40 students benefited from the lecture.

Cable & Suspension Bridge

Civil Engineering Department organized Content beyond Syllabus on the topic "Cable & Suspension Bridge" for 4th semester section A students on 20th April 2024 for the subject "Structural Analysis". The student found the topic very interesting. Students were able to understand the concept and application of making Cable & Suspension Bridge in the construction sector.

Expert Lecture

Lateral Torsional Buckling of Laterally Unsupported Steel Beams

The Department of civil Engineering organized an Expert lecture on "Lateral Torsional Buckling of Laterally Unsupported Steel Beams" for 6th semester students on 14/03/ 2024 at offline mode. The guest speaker was Dr. A. P. Khatri, Assistant Professor, VNIT Nagpur.

Understanding Human Values

The Department of civil Engineering organized Expert lecture on "Understanding Human Values" for VI-semester students at offline mode. The guest speaker was Pratik Daghe. The lecture was very informative and a good experience for the students, and he answered all queries put up by the students to their full satisfaction. Total 45 students attended expert lecture.

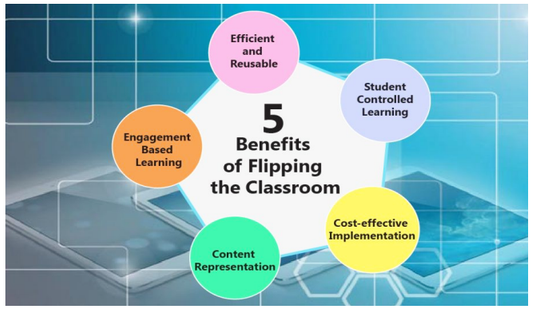

Flip Teaching

Flip Teaching was conducted on 23rd March 2024 for 6th Sem Civil Engineering Students From 4.40 PM to 5:30 PM, The topic discussed in the lecture was 'Integrated Solid Wate Management'. Students were ready with their study regarding the topic and discussed issues with faculty.

Workshop

Building Information Modelling (BIM)

On 29th Feb 2024, a workshop on Building Information Modelling (BIM) was organized for UG students of Civil Engineering department to know the latest trends in the construction Industry.

BIM software module has excellent patronage by the Civil Engineering industry. To make the students of successive batches industry ready, institute had planned this Workshop. Admire Tech Vision, Nagpur was the agency that imparted this BIM to the students.

Inauguration Function of ICI student chapter

On 12th Feb 2024, Department of Civil Engineering witnessed a remarkable Inauguration ceremony of ICI student chapter at B-1-10 Dr. APJ Abdul Kalam. Indian Concrete Institute is one of the leading professional bodies in India, catering to the professional needs of individuals and organizations involved in Concrete. ICI is focused towards advocating the concept of sustainability in construction practices. Many of the ICI events are focused on achieving sustainability through innovative materials and techniques.

STTP/WORKSHOPS/FDP Details

Sr. No	Faculty Name	Name of the Event STTP/WORKSHOP /FDP	Duration of Event	STTP/FDP WORKSHOP	Organised By
1.	Dr. Vijaya K Kotapati	Disaster Management	1st – 5th April, 2024	STTP	G H Raisoni College of Engineering, Nagpur
2.	Dr. Vijaya K Kotapati	How to Write & Publish Research Papers	12th – 18th January, 2024	FDP	Hi Learn Edutech Institute, Karnataka
3.	Dr. Vijaya K Kotapati	High Performance Computing in Engineering Application (HPCAE-2024)	28th Feb – 3rd March, 2024	WORKSHOP	NIT Warangal
4.	Ms. Deepa Telang	Generative AI & It's Applications	05th – 10th February, 2024	FDP	G. H. Raisoni Institute of Engineering And Technology, Nagpur
5.	Dr. Ashok Amgoth	Commentary IS:456-2000 with expected Modifications in the Forthcoming Revision	12th January, 2024	STTP	NITTTR -Kolkata
