Nagpur | Pune | Jalgaon | Amravati | Pandhurna | Bhandara

Late
Shri Gyanchandji
Raisoni

OUR INSPIRATION

Education is a state of mind, growing and expanding on the part of an individual or a society. Education is not a single skill to be mastered, a body of facts to be memorised, or a product to be obtained but an integrated system to be developed fully.

In today's challenging world, the youth should be intellectually and emotionally balanced so that they prove to be worthy citizens.

The tremendous increase in the complexity of technologies and the enormously rapid increase in the knowledge base that supports technology have posed a lot of challenges.

Amid this challenging environment, to promote good character-building among the young generation, an overall personality development approach is required.

With the ever-increasing levels of competition in the education sector, there is always an opportunity to move beyond expectations, creating new milestones and benchmarks.

ABOUT RAISONI

Develop a passion for learning. If you do, you will never cease to grow.

Raisoni Education, a leading educational network in Central India, boasts a rich history of nurturing future leaders across various disciplines. Established in 1998 with the foundation of G H Raisoni College of Engineering in Nagpur, Raisoni Education has grown steadily, encompassing 19 institutes and 4 universities which are spread across six cities - Nagpur, Jalgaon, Pune, Amravati, Pandhurna and Bhandara.

An innovative approach at every step towards success sets the Raisoni apart. We chose to provide practically oriented education combined with a strong academic focus, developed specifically to meet industry needs.

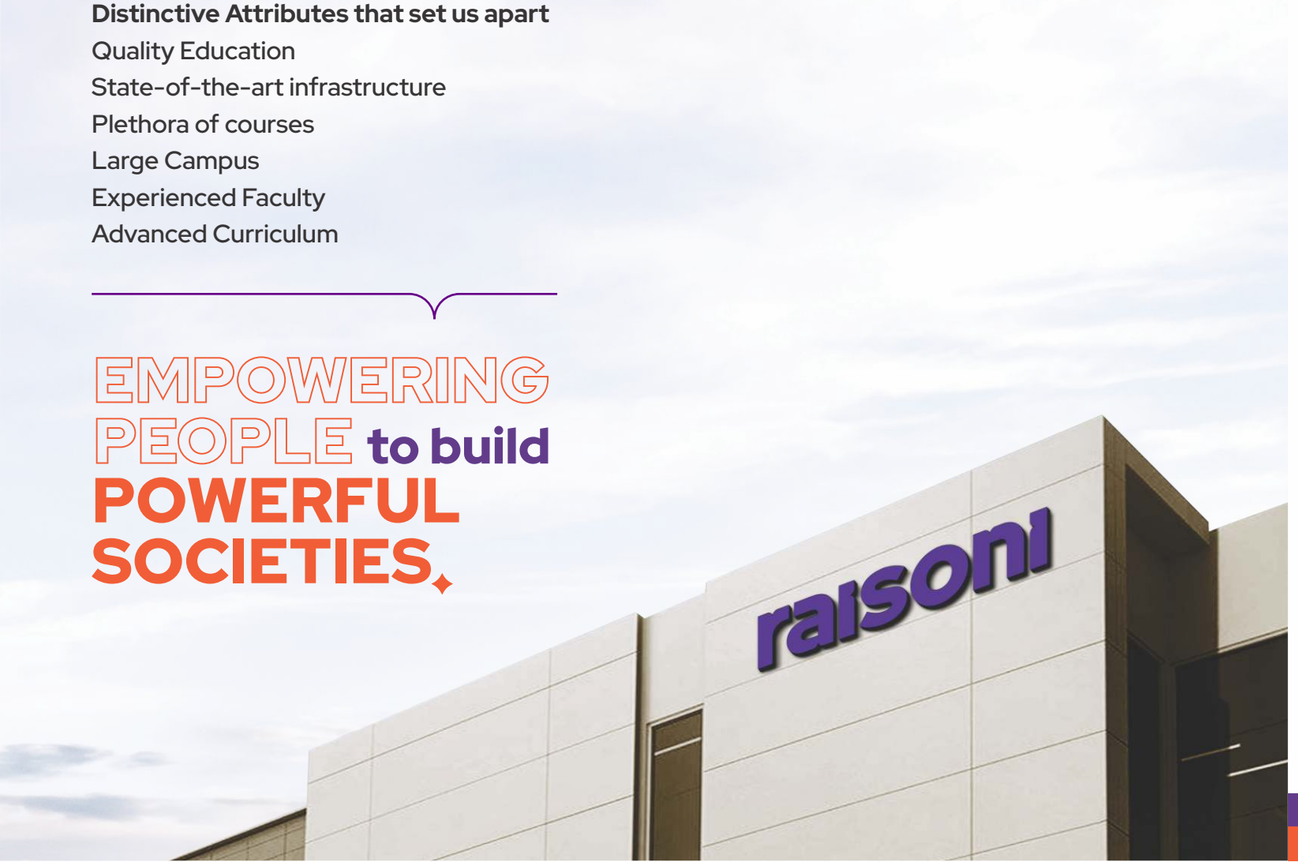

Since the start of the journey, our motto has been 'the vision beyond'.

Our diversified spectrum includes various industries, from Manufacturing and Distribution to Marketing, Construction, and Healthcare. Education being a significant domain, we believe we can create an impact by empowering students to achieve new milestones and lead fulfilling lives. We are dedicated to offering a wide range of courses and fostering a vibrant campus life to ensure our students receive quality education and holistic development. We are committed to equipping our students with the knowledge, skills, and confidence to excel in their careers and contribute positively to society.

Distinctive Attributes that set us apart

Quality Education
State-of-the-art infrastructure
Plethora of courses
Large Campus
Experienced Faculty
Advanced Curriculum

EMPOWERING PEOPLE to build POWERFUL SOCIETIES.

VISION

To achieve excellent standards of quality education by keeping pace with rapidly changing technologies and create technical manpower of global standards with capabilities of accepting new challenges.

MISSION

Our efforts are dedicated to impart quality and value based education to raise satisfaction level of all stakeholders. Our strength is directed to create competent professionals. Our endeavour is to provide all possible support to promote research and development activities.

"Come, shake hands with Kimba"

– Our Mascot, Your Companion!

CHAIRMAN'S MESSAGE

Empowering lives through education, innovation and values.

Beginning with the visionary ambition of my late father, Shri Gyanchandji H. Raisoni, the Raisoni Group has flourished under his blessings, expanding from a single engineering college to a conglomerate of several institutes.

Raisoni Education - An organisation of excellence that has established a new paradigm in education, inculcating the perfect blend of academic and co-curricular activities. With the liberalisation of the economy, there has always been a need for world-class Universities, with the capacity to pursue their contribution to global competitiveness and economic growth. Holding it to be the primary focus, our educational institutes emphasise more on practical education, industry exposure, and inculcating the latest technological updates in the curriculum.

Universities and institutes under our umbrella are committed to empowering the objectives of the students, enlightening their minds and training them to become industry-ready. I take this opportunity to reaffirm my complete support to students and wish them success in every endeavour. With us, you have miles to go in the direction of success.

Shri Sunil Raisoni

Chairman, Raisoni Group

ADVISOR'S MESSAGE

Education's purpose is to replace an empty mind with an open one.

India, an emerging economic global power, requires professionals with strong administrative and technical abilities. Raisoni Education aims to equip students with the latest field trends and techniques. It highlights the importance of strong managerial and technical abilities to meet the needs of the emerging economic global power of India.

Raisoni Education has established top-notch infrastructural facilities to support its mission. It is committed to creating professionals with analytical, creative, and effective team player skills, aligning with the business needs. It inspires innovation and promotes excellence within its training structure, aiming to prepare students to meet industry expectations.

Raisoni Education offers vast opportunities for experiential learning, enabling students to apply theoretical knowledge to real-world scenarios. By offering hands-on experience, students gain a deeper knowledge of industry approaches. Students are well-prepared to tackle the challenges and opportunities presented in the modern workforce by the institute's curriculum, which is structured to cope with industry needs. This industry-relevant approach enhances the job opportunities of the students.

Mr Shreyas Raisoni

Advisor, Raisoni Group

DIRECTOR'S MESSAGE

The Best Way to Predict your Future is to Create it.

G H Raisoni College of Engineering and Management (GHRCEM) Nagpur has been gradually cultivating the spirit of excellence not only in the field of academics but also in research. We at GHRCEM Nagpur believe in providing a conducive learning environment and resources required to create brilliant minds and engineers who can be the balance wheel of society.

The world is evolving faster due to rapid advances in science and technology, and Darwin's principle, Survival of the Fittest, aptly suits the present era of technology. To be perfect while embarking on a journey of success, preparedness, foresight, and strategy are needed. We help students to dream big and to achieve the same.

GHRCEM Nagpur is committed to providing quality outcome-based education. With a team of highly qualified and skilled faculty, a well-planned curriculum, modern infrastructure and facilities, well-equipped laboratories, excellent library facility, I am confident that the institute will develop knowledgeable and skilled engineers.

Dr Vivek Kapur

Campus Director, GHRCEM Nagpur

It gives me great pleasure to welcome you to our institution, where education is designed to inspire excellence, innovation, and leadership. We are committed to providing a holistic learning environment that nurtures academic achievement, personal growth, and professional success.

Our college emphasizes academic excellence along with industry-oriented training, practical exposure, and skill development to prepare students for the challenges of the modern world.

With world-class facilities, dedicated faculty, and a supportive atmosphere, we strive to help every student realize their full potential.

We believe in shaping not only successful professionals but also responsible citizens and future leaders. I invite you to join us on this journey of learning, growth, and transformation.

Dr Achal Shahare

Director, GHRCEM Nagpur

ABOUT INSTITUTE

Established in 2008, G H Raisoni College of Engineering and Management Nagpur is an Autonomous college under the UGC Act 1956 affiliated to Rashtrasant Tukadoji Maharaj Nagpur University and is recognised by All India Council for Technical Education (AICTE). GHRCEM Nagpur is NAAC Accredited with an A+ grade and is one of the premier Institute of the Raisoni Education among several educational institutions under its umbrella. The college endeavours to impart academic excellence by promoting technology, scientific thinking, and innovation. GHRCEM is located at a prime location in Nagpur and is well connected through road transport. Industrial development in & around the city is bringing new opportunities to the economic development of the Nagpurians & outsiders.

GHRCEM Nagpur is one of the most highly regarded institutes committed to staying at the forefront of expanding knowledge worldwide. The environment on the campus is conducive to academic pursuits with the help of qualified and experienced teaching staff, who make efforts for students' overall development.

RANKINGS

- An Autonomous Institute
- NAAC Accredited with A+ Grade

KEY HIGHLIGHTS (USPs)

- Outcome-based education
- Highly motivated, qualified & experienced faculties
- Continuous evaluation in theory as well as in practical
- Well-equipped laboratories
- Campus recruitment training (CRT)
- Industry collaborations
- MoUs with renowned industries
- Industrial tours
- In-campus facilities include separate hostels for boys and girls

INSTITUTE'S ACTIVITIES

The Research and Development (R&D) Cell of G H Raisoni College of Engineering and Management Nagpur serves as a dynamic nucleus for driving innovation, exploration, and academic excellence within the institution. With a firm commitment to advancing knowledge, fostering interdisciplinary collaboration, and nurturing the spirit of inquiry among students and faculty, the R&D Cell plays a pivotal role in shaping the intellectual landscape of the college.

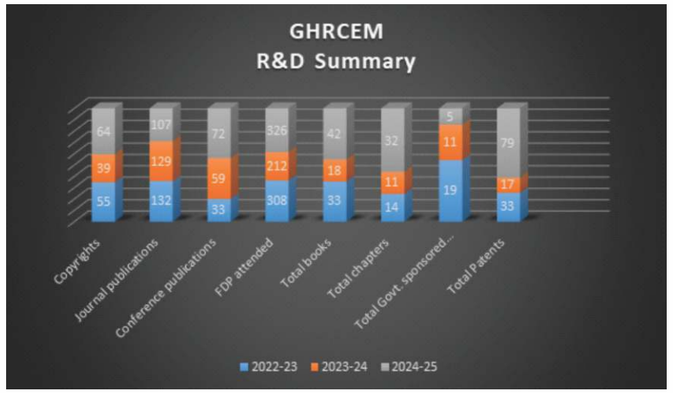

KEY INITIATIVES

- **Research Workshops and Seminars:** The R & D Cell organises workshops, seminars, and conferences on pertinent research topics, inviting eminent scholars and experts to share their insights and experiences, thereby fostering intellectual discourse and knowledge exchange.
- **Research Grants and Funding:** It administers research grants and funding schemes to support faculty and students in conducting research projects, procuring equipment, and attending conferences, thereby promoting research excellence and academic mobility.
- **Incubation and Start-up Support:** The R & D Cell provides incubation support and mentorship to aspiring entrepreneurs and innovators, assisting them in translating their ideas into viable ventures and fostering a culture of entrepreneurship within the college ecosystem.
- **Publication Support:** It offers guidance and support to faculty and students in publishing their research findings in reputed journals, thereby enhancing the visibility and impact of their scholarly work.

ACHIEVEMENTS

- **Publications:** The R & D Cell has facilitated numerous publications in peer-reviewed journals, contributing to knowledge advancement.
- **Research Collaborations:** Through its efforts in fostering collaboration and partnership, the R & D Cell has facilitated several research collaborations with industry partners and other academic institutions, thereby enriching research outcomes and fostering knowledge exchange.
- **Student Engagement:** The R & D Cell has actively engaged students in research activities through various initiatives such as student research projects, internships, and research scholarships, thereby nurturing a new generation of researchers and innovators.
- **The Research and Development Cell** : It serves as a beacon of academic excellence, fostering a vibrant research culture, promoting interdisciplinary collaboration, and nurturing innovation and entrepreneurship within the college community. With its unwavering commitment to advancing knowledge and fostering intellectual inquiry, the R & D Cell continues to play a pivotal role in shaping the future trajectory of the institution and contributing to the advancement of society at large.

FUNCTIONAL MoUs

A memorandum of understanding (MoU) is a document that describes the broad outlines of an agreement that two or more Institutes / Industries / Companies have reached. MoUs with different Institutes / Industries / Companies helps the students/faculties to enhance their knowledge & experience by mutual understanding & cooperation.

MoUs can outline internships, co-op programs, industry-sponsored projects, and research partnerships, creating a win-win situation for both academia and industry.

Research Collaborations: MoUs are valuable for fostering research partnerships between educational institutions and research organisations.

Why Choose GHRCEM Nagpur

GHRCEM Nagpur delivers a comprehensive education with a strong focus on Outcome-Based Education, guided by highly motivated, qualified, and experienced faculty.

Continuous evaluation in both theory and practical courses ensures thorough understanding and skill development.

Our well-equipped laboratories, Campus Recruitment Training (CRT), and extensive industry collaborations, including MoUs with renowned industries, prepare students for real-world challenges.

The R&D Cell at GHRCEM Nagpur fosters a vibrant research culture through workshops, seminars, research grants, incubation support, and publication assistance, significantly contributing to academic and research excellence.

In addition, in-campus hostel facilities for both boys and girls, industrial tours, and robust student engagement in research activities create a supportive and dynamic learning environment.

GHRCEM Nagpur is a premier choice for aspiring engineers and managers, committed to advancing knowledge and fostering innovation.

raisoni

EMPOWERING PEOPLE to build POWERFUL SOCIETIES.

UG COURSES

B.Tech. - Computer Science and Engineering (NBA Accredited)

Program Details

The department of computer science regularly organises a series of seminars, workshops, expert lectures and skill development programs in the emerging technological area of computer science. The department also organises industrial visits for students to interact with industries. There is great emphasis on hands-on training and design as a part of project work. The CSE department attracts high-quality students from all over India and has an impressive placement record.

The department has state-of-the-art infrastructure and computing equipment supported by high-speed internet and wireless network. The department has taken up the challenge to attract world-class faculty in all areas of Computer Science & Engineering and is strongly committed to excellence in both education and research.

Eligibility

Undergraduate: First-year Engineering

- Passed HSC Examination with Physics & Mathematics as compulsory subjects and any one out of chemistry/Biology/Biotechnology/ technical vocational subject.
- Minimum 45% marks (For reserved category & handicapped 40% marks) compulsory.
- 51% minority quota is admitted on general merit basis, 20% management quota is also based on general merit and 29% through centralised admission process by DTE.

For Direct Second-year Admission in Engineering / Technology

The Candidate must be an Indian National and should have passed Post-SSC or Post-HSC Diploma Course in Engineering / Technology with at least 45 % marks (40 % marks in case of candidates of backward class categories and Persons with Disability belonging only to Maharashtra State) in appropriate branch of Engineering / Technology from an AICTE approved Institution with English as the medium of instruction at Diploma level.

OR

The Candidate must be an Indian National and should have passed B.Sc. Degree from a UGC / Association of Indian Universities recognised University with at least 45% marks (40 % marks in case of candidates of Backward class categories and Persons with Disability belonging only to Maharashtra State) and passed XII standard examination with Mathematics as the subject and with English as the medium of instruction at B.Sc. level.

Note: The students belonging to the B.Sc. stream shall only be considered after filling the seats in this category with students belonging to the Diploma Stream. Students belonging to the B.Sc. stream are required to pass the subjects of Engineering Graphics/Engineering Drawing and Engineering Mechanics of the first-year Engineering program along with the second-year subjects.

Core Courses

- Programming Languages
- Data Structures
- Computer Architecture
- Operating Systems
- Computer Networks
- Database Management System
- Computer Graphics
- Design Pattern
- Software Systems
- Data Warehousing and Mining
- Information and Cyber Security
- Mobile Computing
- Digital Forensic
- Clustering
- Cloud Computing

Career Opportunities

- Higher Studies
- Full-stack Developer
- Computer Network Architect
- Software Engineer
- Web Developer
- Application Developer
- Database Administrator
- Front-end/Back-end Engineer
- Computer Systems Analyst
- Data Scientist
- Software Developer
- Government Jobs After B.Tech. CSE

Course USPs

- Hands-on Learning
- Capstone Projects
- Entrepreneurial Opportunities
- Global Exposure

Further Studies Options

After completing a degree in computer science, there are numerous further study options you can consider to deepen your knowledge, specialise in a particular area, or broaden your skill set.

- Master's Degree
- PhD in Computer Science
- Networking and Professional Development
- MBA (Master of Business Administration)
- Entrepreneurship

B.Tech. - Artificial Intelligence

Program Details

B.Tech. in Artificial Intelligence is an undergraduate program with advanced learning solutions imparting knowledge of advanced innovations like machine learning and artificial intelligence. This specialisation is designed to enable students to build intelligent machines, software, or applications with a cutting-edge combination of machine learning, analytics, and visualisation technologies.

Our B.Tech. in Artificial Intelligence program offers a robust curriculum covering core areas such as Programming, Operating Systems, and Database Management Systems. Advanced courses include Machine Learning, Natural Language Processing, Computer Vision, and Deep Learning. Students also engage with cutting-edge technologies like IoT and Cloud Computing and select from 8 industry-oriented electives, ensuring comprehensive preparation for the tech industry.

Eligibility

Undergraduate: First-year Engineering

- Passed HSC Examination with Physics & Mathematics as compulsory subjects and any one out of chemistry/Biology/Biotechnology/ technical vocational subject.
- Minimum 45% marks (For reserved category & handicapped 40% marks) compulsory.
- 51% minority quota is admitted on general merit basis, 20% management quota is also based on general merit and 29% through centralised admission process by DTE.

B.Tech. - Data Science

Program Details

Our Data Science program equips students with the skills to enhance decision-making across organisations through data science and analytics. Students will learn model-building methods, prescriptive analysis techniques, and gain hands-on experience with widely-used analytical tools. Partnering with industries in healthcare, software engineering, social media, services, and finance, the program offers advanced training to address real-world challenges.

Our B.Tech. in Data Science program provides a comprehensive education with core courses in Programming, Operating Systems, and Database Management Systems. Specialized courses include Data Analysis Using R, Machine Learning, Big Data Computing, and Cloud Computing. The curriculum is designed to equip students with practical skills in Information Retrieval, Text Mining, and Computer Vision, complemented by 6 industry-oriented electives to ensure they are industry-ready.

Eligibility

B.Tech. - Computer Science & Engineering (Cyber Security) (NBA Accredited)

Program Details

Our Cyber Security program focuses on developing skills to anticipate and counter future cyber threats while adhering to cyber laws and respecting individual privacy. This includes the ability to implement security solutions without compromising legal regulations and personal privacy rights. Additionally, students demonstrate their engineering practice through industry internships, applying their knowledge to solve real-world problems across various domains.

The curriculum covers a wide range of topics, including network security, cryptography, ethical hacking, digital forensics, incident response, and secure software development. Through hands-on projects and industry internships, students gain practical experience and develop the ability to design and implement robust security measures. Upon graduation, they are well-equipped to safeguard digital assets and ensure the security of information systems in diverse sectors.

Eligibility

Undergraduate: First-year Engineering

- Passed HSC Examination with Physics & Mathematics as compulsory subjects and any one out of chemistry / Biology / Biotechnology / Technical vocational subject.
- Minimum 45% marks (For reserved category & handicapped 40% marks) compulsory.
- 51% minority quota is admitted on general merit basis, 20% management quota is also based on general merit and 29% through centralised admission process by DTE.

For Direct Second-year Admission in Engineering/Technology

The Candidate must be an Indian National and should have passed Post-SSC or Post-HSC Diploma Course in Engineering / Technology with at least 45 % marks (40 % marks in case of candidates of backward class categories and Persons with Disability belonging only to Maharashtra State) in appropriate branch of Engineering / Technology from an AICTE approved Institution with English as the medium of instruction at Diploma level.

OR

The Candidate must be an Indian National and should have passed B.Sc. Degree from a UGC / Association of Indian Universities recognised University with at least 45% marks (40 % marks in case of candidates of Backward class categories and Persons with Disability belonging only to Maharashtra State) and passed XII standard examination with Mathematics as the subject and with English as the medium of instruction at B.Sc. level.

Note: The students belonging to the B.Sc. stream shall only be considered after filling the seats in this category with students belonging to the Diploma Stream. Students belonging to the B.Sc. stream are required to pass the subjects of Engineering Graphics/Engineering Drawing and Engineering Mechanics of the first-year Engineering program along with the second-year subjects.

Core Courses

- Cyber Defense
- Digital Forensics
- Computer Networks
- Blockchain Security
- Security Analysis

Career Opportunities

- Cyber Security Analyst
- Security Architect
- Cyber Security Manager
- Application Security Engineer
- Cloud Security Engineer
- Cyber Security Consultant

Further Studies Options

- Post-Graduation (PG/ M.Tech.)
- MS in Cybersecurity from Foreign Universities
- MS (Cyber Law and Information Security)
- Post-graduation in Digital Forensic

B.Tech. - Information Technology

Program Details

Information Technology is the application of technology to solve organisational and business problems. Our B.Tech program in Information Technology prepares students to tackle organisational and business challenges using technology. With a curriculum covering diverse areas like image processing, data communication, networking, and software design, students gain practical skills to address real-world problems. Over four years and eight semesters, they delve into system information, including radio, television, mobile phones, computer network hardware, and satellite systems, empowering them to design and implement IT infrastructures that meet societal needs.

Through a blend of theoretical foundations and practical applications, our programme equips graduates to excel in the dynamic landscape of Information Technology. From streamlining operations to enhancing productivity and gaining a competitive edge, students emerge ready to navigate the evolving demands of the industry and drive innovation in the field.

Eligibility

Undergraduate: First-year Engineering

- Passed HSC Examination with Physics & Mathematics as compulsory subjects and any one out of chemistry/Biology/Biotechnology/ technical vocational subject.
- Minimum 45% marks (For reserved category & handicapped 40% marks) compulsory.
- 51% minority quota is admitted on general merit basis, 20% management quota is also based on general merit and 29% through centralised admission process by DTE.

For Direct Second-year Admission in Engineering / Technology

The Candidate must be an Indian National and should have passed Post-SSC or Post-HSC Diploma Course in Engineering / Technology with at least 45 % marks (40 % marks in case of candidates of backward class categories and Persons with Disability belonging only to Maharashtra State) in appropriate branch of Engineering / Technology from an AICTE approved Institution with English as the medium of instruction at Diploma level.

OR

The Candidate must be an Indian National and should have passed B.Sc. Degree from a UGC / Association of Indian Universities recognised University with at least 45% marks (40 % marks in case of candidates of Backward class categories and Persons with Disability belonging only to Maharashtra State) and passed XII standard examination with Mathematics as the subject and with English as the medium of instruction at B.Sc. level.

Note: The students belonging to the B.Sc. stream shall only be considered after filling the seats in this category with students belonging to the Diploma Stream. Students belonging to the B.Sc. stream are required to pass the subjects of Engineering Graphics/Engineering Drawing and Engineering Mechanics of the first-year Engineering program along with the second-year subjects.

Core Courses

- Operating Systems
- Database Management
- Data Structures
- Computer Networks
- Programming Languages

Career Opportunities

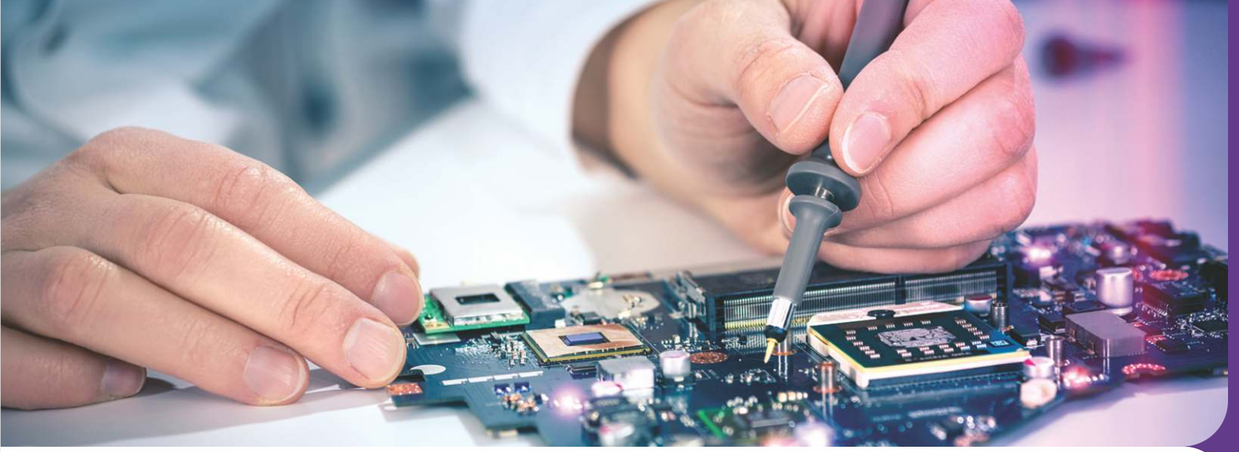

- Higher Studies
- Full-stack Developer
- Computer Network Architect
- Software Engineer
- Web Developer
- Application Developer
- Database Administrator
- Front-end/Back-end Engineer
- Computer Systems Analyst
- Data Scientist
- Software Developer

Further Studies Options

- Master's Degree
- PhD in Computer Science
- Networking and Professional Development
- MBA (Master of Business Administration)
- Entrepreneurship

B.Tech. - Electronics & Tele-Communication Engineering

Program Details

The Department of Electronic and Telecommunication Engineering is one of the prominent branches at GHRCEM Nagpur which facilitates students to specialise in the field of Communication and VLSI. The main objective of the department is to impart a strong background of theory and practicality in communication including satellite, wireless, and optical communication systems, television data communication, and VLSI.

We have well-equipped laboratories and have made significant investments in the latest instruments and technologies. Several faculties have an industrial background or are pursuing their higher study in the field of Electronics. The department encourages students and faculty members to take part in STTP, workshops, national and international conferences, etc. To bridge the gap between practical and theoretical knowledge the department is making efforts and organising industrial visits for students to TV stations, Radio stations, loco shade, Hi-tech Resistance RADAR, etc.

Eligibility

Undergraduate: First-year Engineering

- Passed HSC Examination with Physics & Mathematics as compulsory subjects and any one out of chemistry / Biology / Biotechnology / technical vocational subject.
- Minimum 45% marks (For reserved category & handicapped 40% marks) compulsory.
- 51% minority quota is admitted on general merit basis, 20% management quota is also based on general merit and 29% through centralised admission process by DTE.

For Direct Second-year Admission in Engineering / Technology

The Candidate must be an Indian National and should have passed Post-SSC or Post-HSC Diploma Course in Engineering / Technology with at least 45 % marks (40 % marks in case of candidates of backward class categories and Persons with Disability belonging only to Maharashtra State) in appropriate branch of Engineering / Technology from an AICTE approved Institution with English as the medium of instruction at Diploma level.

B.Tech. - Civil Engineering

Program Details

A Civil Engineer is an expert who deals with plan, development, and support of the physical and normally formulated conditions including works like streets, areas, channels, dams, bridges, and various structures. Our Civil Engineering Department boasts well-equipped research facilities covering a wide spectrum of disciplines including Strength of Materials, Concrete Technology, Environmental Engineering, Fluid Mechanics, Engineering Mechanics, Transportation Engineering, Geotechnical Engineering, and more. Our department's strength lies in its dedicated and skilled faculty members who employ innovative teaching methodologies such as peer teaching and flipped classrooms to deliver engaging lectures. To provide students with practical insights, we organise field visits, facilitating hands-on learning experiences.

Our goal is to expose students to the latest advancements in civil engineering, driving them towards exploring innovative solutions to modern challenges. Projects are tailored to leverage students' internship experiences and address issues encountered in the construction industry. Through this approach, we aim to instil in our students not only theoretical knowledge but also the practical skills and problem-solving abilities necessary for success in the field of civil engineering.

Eligibility

Undergraduate:- First-year Engineering

- Passed HSC Examination with Physics & Mathematics as compulsory subjects and any one out of chemistry/Biology/Biotechnology/ technical vocational subject.
- Minimum 45% marks (For reserved category & handicapped 40% marks) compulsory.
- 51% minority quota is admitted on general merit basis, 20% management quota is also based on general merit and 29% through centralised admission process by DTE.

B.Tech. - Mechanical Engineering

Program Details

We are committed to offering students an exceptional mechanical engineering education, enriched with practical experience, to ready them for thriving careers in Industry, Research, and Academia. With our dedicated faculty and a strong emphasis on fostering teamwork, leadership, and engagement in industry-aligned projects, we empower students to step confidently into future leadership roles.

Through the Mechanical Engineering Students Association (MESA), students engage in a vibrant community, exchanging knowledge and networking while excelling academically and in extracurricular activities. Encouraged to publish research and partake in esteemed competitions, our students thrive in an environment that fosters academic excellence and innovation. Our comprehensive curriculum encompasses vital subjects like Thermodynamics, Fluid Mechanics, Strength of Materials, Machine Design, and Robotics, complemented by practical skills in CAD/CAM software, project management, and critical problem-solving, ensuring graduates are well-prepared to confront real-world engineering challenges with confidence.

Eligibility

Undergraduate:- First-year Engineering

- Passed HSC Examination with Physics & Mathematics as compulsory subjects and any one out of chemistry/Biology/Biotechnology/ technical vocational subject.
- Minimum 45% marks (For reserved category & handicapped 40% marks) compulsory.

B.Tech. - Electrical Engineering (NBA Accredited)

Program Details

Electrical Engineering is a core engineering discipline, with the four-year B.Tech. curriculum focusing on the study and application of electricity, electronics, and electromagnetics for creating and maintaining electrical and electronic equipment. Our course delivery methods include lectures, seminars, training, and a research project. The four-year B.Tech. in Electrical Engineering curriculum focuses on the study and application of electricity, electronics, and electromagnetics for creating and maintaining electrical and electronic equipment. Students work in various industries, including computer chips, power plants, industrial machinery, and hardware firms, using CAD systems for circuit planning and computer simulations for electrical systems and equipment.

The department, with its eight well-equipped laboratories, regularly updates infrastructure and facilities to provide ample learning and innovation opportunities. MoUs with industries facilitate industrial visits, summer internships, and final-year projects. Students have access to over 1,150 educational videos and other study materials. The Imparts Class Room allows for recording and reviewing lectures. The professional student chapter under the Institution of Engineers encourages participation in industry-based projects, peer teaching, project competitions, and club activities.

Eligibility

Undergraduate:- First-year Engineering

- Passed HSC Examination with Physics & Mathematics as compulsory subjects and any one out of chemistry/Biology/Biotechnology/ technical vocational subject.
- Minimum 45% marks (For reserved category & handicapped 40% marks) compulsory.
- 51% minority quota is admitted on general merit basis, 20% management quota is also based on general merit and 29% through centralised admission process by DTE.

PG COURSES

Master of Business Administration (MBA)

Program Details

GHRCEM Nagpur (formerly GHRIET)-MBA offers a two-year, full-time MBA program, designed to equip young graduates to accept leadership roles in a highly complex but active global business scenario. It has been playing a leading role in imparting quality management education along with all-inclusive development. In addition to the routine curriculum, it has incorporated a diverse range of value-added activities aimed at the modernisation, application, and spreading of management knowledge and practices. The department gives students a deep understanding and insight into business operations and best practices.

GHRCEM, Nagpur-MBA has built healthy relationships with leading business organisations, corporations, and alumni to achieve sustainable and mutually profitable activities. The program brings in leading industry practitioners as guest speakers regularly and organises industry visits to bring fresh ideas and up-to-date pertinent management thinking to students. This presents our students with an opportunity to study a specific area of interest in depth, under the close direction of a faculty member. GHRCEM, Nagpur-MBA is committed to being adaptive and responding to the diverse needs of business organisations with which we network and interact.

Eligibility

- The candidate should be an Indian National
- Passed a minimum three-year duration Bachelor's Degree from a University recognised by UGC or Association of Indian Universities in any discipline with at least 50% marks in aggregate or equivalent (at least 45% in case of candidates of backward class categories and Persons with Disability belonging to Maharashtra State only)
- Appeared for the final year examination of any Bachelor's degree of a minimum of 3 years of duration in any discipline from any recognised Indian University. Passed the final year exam with a minimum of 50% aggregate (45% in the case of candidates belonging to backward class categories of Maharashtra State only)

Career Opportunities

- Information Technology
- Healthcare
- Marketing Manager
- Manager of Business Operations
- Human Resources Manager
- Business Analyst

Further Studies Options

- Professional Certifications in Digital marketing, SAP, Project Management and more
- Specialised Courses - Chartered Financial Analyst, IT Business Analyst, Investment Banking Analyst and more
- Internships in Renowned Corporates
- PhD

Master of Computer Applications (MCA)

Program Details

MCA (Master of Computer Applications) is a professional master's degree in computer science. It focuses on providing theoretical as well as practical training to students in the related field." Welcome to the MCA Department of Raisoni College of Enginnering & Managment, Nagpur for degree and PG Courses. We are dedicated to ensuring great careers for our students. There are several ways to present the canonical core of computer science which involves building deeper industry relations than before. Crafting a research culture from day one using the best technologies available is one of the basic techniques. Evolutions of technology have changed rapidly over the years and have industrialised to bridge the gap between theories and practice. Learning is a continuous process and does not end with the procurement of a degree.

We ensure that our students are given a strong foundation in computer science with problem-solving techniques, and are made adaptable to changes. We welcome you to the Computer Applications Department as an undergraduate or postgraduate student and we hope to be part of your success. Computers have captured the world. Today there is no single field where computers have not left a mark. The department aims at IT-based Learning, Development of Entrepreneurship among students, and becoming a Centre of Excellence. The Department places a high priority on establishing and maintaining innovative research programs that enhances the educational opportunities and encourage a broad base of extramural support to prepare future generations of computer professionals for long-term careers in research, technical development, and applications.

Eligibility

- Candidates with graduation in any stream with at least 50% marks (45% for reserved category) from a recognised University are eligible for the MCA Program.
- No Candidates applying for the MCA Program are required to be an Indian national. Candidates should have studied mathematics at the 10+2 level or graduation level.

Campus Life

Campus Details

GHRCEM is located near MIDC Police Station, Hingna-Wadi Link Road, Nagpur.

The college is just 10 km from the Nagpur Railway Station, 8 km from Nagpur Airport, and 10 km from the bus station.

GHRCEM Campus extends across 4 Acres, offering many facilities such as:

Canteen

The institute has a well-furnished, hygienic, and well-maintained canteen for the students and faculty members.

Sports Room / Gymnasium

Excellent recreational facilities are available in the form of a sports room (for indoor games), futsal ground, cricket ground, and gymnasium which is equipped with ultra-modern facilities.

Medical Facility

The institute has an in-house medical room that provides a first aid facility. Ambulance is available at the college premises.

Hostel

Housing is possible for every student. Separate hostel for girls & boys (within campus) with all facilities. Hostels have spacious & well-furnished rooms. A peaceful atmosphere is maintained to enable students to concentrate on their studies.

Library

The library is the heart of academics. Library and learning resources cater for the needs of respective departments. The library is fully automated & digitised with the Bar Code System and has a powerful web-based search facility (OPAC). It has a collection of about 70000+ study materials which includes books, references, e-books, student project reports, and research journals. The digital library gives access to online research journals like IEEE, ASME, ASCE, DELNET and NDL.

Transportation

The fleet of Raisoni buses ply throughout the city to facilitate the students and staff.

Student Activities

Student Clubs

Student clubs are established with the aim of fostering students' passions and interests while promoting a sense of community. Being a part of a club encourages self-discovery, exploration of interests, and pursuit of personal goals. Based on this, GHRCEM formed various student clubs.

Joining student clubs allows you to meet a diverse population of people that allows you to expand your thinking and interests. Leadership Skills: Joining a club allows you to develop leadership skills within an environment of your peers.

During each session, various activities are conducted under the Student's club. Student activities are student-focused extracurricular clubs and programs offered at a college. Student activities are generally designed to allow students to become more involved on campus.

List of Clubs

- Toastmasters Club
- Yoga, Pranayam, and Meditation Club
- Coding Club
- Arts and Craft Club
- AI Club
- Drama Club
- Renewable Energy Club
- Dance Club
- Photography Club
- Oboadheyan Club
- Music Club (Riyaz)
- Kindness And Happiness Club
- Data Science Club
- Astrology Club

Dance Club

Yoga Club

Data Science Club

Events

IT Forum

- The IT Forum, formed in the institute, regularly organises various events and activities for MCA students.
- Department, such as cultural, technical, and sports activities to bring out the talent among the students.
- Academic seminars by Industry Experts on the latest trends, practices, and technologies in IT.
- Workshops on Latest Software and Technologies.
- Sports Competitions that include cricket, table tennis, chess, and carrom.
- Technical Competitions such as paper presentations, project competitions, poster presentation.

A Technical Quiz Competition on “Clean and Green Energy”, conducted by the Electrical Engineering Department.

A ‘poster-making competition’ organised by the Renewable Club.

Drones and Robotics Club Seminar conducted on “Drone Technology: Emerging Trends”

Drone assembly and flying workshop.

An Awareness session conducted on energy conservation.

Blood Donations Camps

"Code-E-Thon" A Technical Event conducted by GHRCEM Nagpur.

Ganesh Chaturthi

Shivaji Jayanti

Faculty Development Program on Blockchain Technology.

Induction Program

- An annual event for the freshers.
- Explore students about the college history.
- Provide information about the course & its objectives in detail.
- Introduce staff members of the institute to the students.

Teachers' Day

Celebrated by the staff and students with great vigour on the 5th of September each year. To enhance purposeful education with "human values" and "social responsibility" by participating in outreach programs; To achieve excellence in academic disciplines, research & extension activities through an emphasis on "Quality in every Activity".

Students Farewell

Valedictory Ceremony was organised by the department to bid farewell to the students of Final-year wishing them the very best in their careers.

Valedictory Ceremony

Republic Day and Independence Day Celebrations

The institute Celebrates Republic Day on 26th January and Independence Day on 15th August every year by organising inter-departmental Competitions on Patriotic themes.

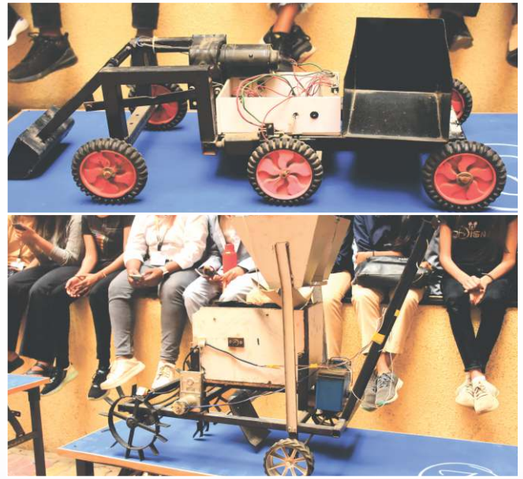

Inter Collegiate Events

Our students actively participate and excel in national-level technical fests like TechCrunch-2023 and Mechtechnofest. These events include a diverse range of competitions such as Prototype Model, Line Follower, Electric Circuit Design, Junkyard Wars, Dog Fight, F1 Robo Battle, Cyber Law Quiz, Coding Contest, Robo Soccer, Overnight Programming, and Technical Marathon. Their involvement in these events showcases their technical prowess and innovative thinking.

TechCrunch -2023, Mechtechnofest, National Level Technical Fest.

Konstruct 2.0

Guest Lectures / External Intervention

We conduct various guest lectures in which lectures and seminars are provided by eminent personalities from NIT/IIT & the industry. These lectures not only tend to help the students in their studies but also improve their awareness regarding the various opportunities available to them. The institute also organises parallel education programs to improve the subject competence and confidence of the students.

Mr Bernhard Moestl, Business Mentor
(SPIEGEL-Best Seller Author, Vienna, Austria)

Mr Arpit Yadav, Senior Data Scientist, AIML Consultant

Educational Tours

The college conducts annual class tours for the final-year students to nearby places of interest. It allows the students to bond and get a break from studies and academics which is essential to invigorate themselves.

Educational Tour - Visit to a Solar Plant at GHRCEM

Industrial Visit

The college conducts industrial visits for the final-year students to provide the opportunity to interact with industrial people. It provides in-depth exposure to the industry and its working style.

Art Exhibition Competition Organised at GHRCEM Nagpur

The First-year Engineering Department of GHRCEM, Nagpur, recently organised an Art Exhibition Competition under the First-year Students "Radiance Forum." A total of 51 First-year Students from different branches participated in the competition. The students created beautiful art. Respected Director Sir, Deans, and HODs appreciated the work done by students. The judges for the competition were Dr Madhuri Tayal, HODs, and Dr Seema Raut, Dean, IQAC.

Industrial Visit at Dinshaws Dairy Pvt. Ltd., MIDC Butibori by GHRCEM, Nagpur Students

Department of Mechanical Engineering of G H Raisoni College of Engineering and Management Nagpur recently organised a one-day Industrial visit at Dinshaws Dairy Pvt. Ltd., MIDC Butibori, for the students of B.Tech. 4th and 6th semester. The primary intention behind this visit is to enhance their technical abilities and provide a better understanding of the subject "Refrigeration and Air Conditioning Systems" in an industrial setting.

G H Raisoni College of Engineering and Management (GHRCEM), Nagpur organised an Alumni Reunion "YAADEIN 2023"

G H Raisoni College of Engineering and Management (GHRCEM), Nagpur recently organised an Alumni Reunion. This is an annual event conducted for UG and PG students of 2022, and 2023 Batch on Saturday, Jan 06, 2024, at 4:00 PM as a get-together cum interactive session of alumni, staff & students. GHRCEM is connected with more than 2000 alumni and is continuously in touch with them. As per the planning done under the guidance of Dr Vivek Kapur, Director for the alumni reunion, meticulous planning was done for the successful gathering of all the alumni at GHRCEM, Nagpur. The day started with the welcoming of the alumni. Dr Achal Shahare, Registrar, Ms Deepa Telang, Coordinator GHRCEM, Coordinators of G H Raisoni Alumni Foundation, Deans, COE, heads of department, faculty members, more than 320 Alumni, media persons and a few parents were present in the auditorium.

A Two-Day International Conference on Artificial Intelligence and Quantum Computation-Based Sensor Applications

The Department of Artificial Intelligence at G H Raisoni College of Engineering and Management in Nagpur successfully organised a two-day International Conference on Artificial Intelligence and Quantum Computation-Based Sensor Applications from December 20th to 21st, 2023. This significant event received sponsorship from the Department of Science and Technology (DST) - Science and Engineering Research Board (SERB).

"Antaragni - 2024" Inaugurated at G H Raisoni College of Engineering and Management, Nagpur"

G H Raisoni College of Engineering and Management, Nagpur organised its annual sports and cultural festival in March 2024. The annual sports and Cultural carnival is scheduled from 26th March to 30th March 2024. The annual sports gathering Antaragni provides a platform for students to showcase their talents in sports & Cultural Events. A total of 15 sports events spanning various sports, including cricket, basketball, futsal, volleyball, chess, etc., the fest had something for everyone. Students competed in individual and team-based competitions.

International AI Summit #2: A Huge Success in G H Raisoni College of Engineering and Management Nagpur, India on 27th and 28th January 2023.

The 2-day International AI Summit #2, organised by the Department of Artificial Intelligence and IEEE Student Branch at G H Raisoni College of Engineering and Management, Nagpur, was a huge success. The event brought together leading experts in the field of artificial intelligence to discuss and explore the latest developments, advancements, and trends in the industry.

Student Policy

Code of Conduct for Students

a. It is imperative that the students strictly adhere to the day of opening and closing of each term during the academic year.
b. The student should note that he/she is responsible to the authorities of the Institute not only for his/her conduct in the premises of the Institute but also for his/her conduct in general, outside the premises as well.
c. If reported, observed objectionable conduct within or outside the premises of the Institute and hostel, will make him/her liable for strict disciplinary action.
d. If students are found guilty of raging, he/she will be liable for punishment according to clause 9.1 of the regulations, as per the High Court decision for the University Act. 1956-Regulation 26(1) G-2009.
e. The student should not participate in any political or antisocial activities.
f. Students should help maintain the buildings and the campus of the Institute clean and tidy.
g. If a student remains absent for lectures or practicals without prior, written permission of the HoD/Director, he/she will have to pay a heavy fine per lecture and/or practical for his absence along with any other punishment of academic nature as decided by the authorities.
h. If a student remains absent from the Institute for a continuous period of ten days without prior permission of the Dean/Director, the Management reserves the right to cancel his admission from the Institute and to strike out his/her name from the roll. Such a student will not be entitled to any refund.
i. Students must abide by the rules and regulations framed by the Institute from time to time.
j. The student is expected to read the notices put on the notice board of the college regularly. The college is not responsible for any loss or damage caused to the students due to their failure to read the notices from time to time.
k. The change in the residential address of the student must be communicated to the office immediately.
l. Students should carry their identity cards while in the college.
m. Specific sets of regulations covering particular areas of the college may be posted from time to time by the dean, after being approved by the college management committee, and must be respected.
n. Dress code: The student must wear the college uniform on every working day except Saturday and at the time of college functions. The student should wear a uniform compulsorily as per the following specifications.
    - For Boys: Dark green trousers and blazer with white striped shirt and green tie. Only black shoes are permitted.
    - For Girls: Dark green trousers and blazer with white striped shirt. Only black shoes / Bellies are permitted
o. At the time of the admission, every student signs a declaration about the Ordinance i.e. on admission, he/she shall submit him/herself to the disciplinary jurisdiction of the Director and other authorities of the College who may be vested with the power to exercise the discipline under the Rules, Regulations.
p. A student shall be liable for disciplinary action for misconduct, ragging, and violation of the code of conduct.

The following acts or omissions shall constitute as misconduct.

a. Physical assault or threat to use physical force, against any member of the teaching and non-teaching staff of the College / Department and

any student within the College.

b. Carrying of, use of, or threat to use any weapons.
c. Violation of the status, dignity, and honour of a student belonging to the scheduled castes and scheduled tribes.
d. Any practice, whether verbal or otherwise, derogatory to women.
e. Creating ill will or intolerance on religious or communal grounds.
f. Willfully disrupting any teaching, study, assessment, or research activities or the administration of the College.
g. Willfully obstructing any officer or employee of the College in the performance of his or her duties.
h. Willfully damaging or wrongfully dealing with any property under the control of the College; any property on College premises; or property on a location where a student is present under the auspices of the College.
i. Disobeying or failing, without reasonable cause, to observe any provision of the Bye-Laws, or any rule made by the Council/Board or of any resolution of the Council/Board of which students have been duly notified.
j. Disobeying, without reasonable cause, any instruction of an officer or employee of the college, including failing to leave any building or part of a building when directed to do so;
k. Withholding relevant information or furnishing false or misleading information for purposes connected with academic progression or enrolment or proposed enrolment as a student, whether such withholding or furnishing of information takes place before or after the person becomes a student of the College
l. Contravening any rule made by the Council/Board in relation to the conduct of written assessment
m. Acting dishonestly or unfairly with respect to
    - The preparation or presentation of any essay, project, thesis or other work to be assessed
    - Any examination conducted by the College.
    - Indulging in Cyber Crime.

Termination from the Program

The admission of a student to the UG program may be terminated and the student may be asked to leave the institution in the following circumstances:

- The student fails to satisfy the requirements of the program within the maximum period stipulated for that program.
- The student fails to satisfy the norms of discipline specified by the Institution from time to time.

CAREER GUIDANCE

Training & Placement Cell

The placement department has continuous interaction with the industries to have an idea of what the industries expect from our students who work under the guidance of the Director and Placement Cell Officer. Various activities are conducted in order to guide the students in improving their aptitude, communication, group discussion, interview skills, etc necessary at the time of the placement drive. Industry experts are invited to make the awareness.

The Training and Placement cell is a vital organ of the institute. It acts as a link between the industry and the students. The Training & Placement Cell firmly believes in “Industry - Institute Interaction".

The students have been placed in various companies like Persistence, Etech, Apex Buildcon Pvt. Ltd., ICICI, L&T Infotech, Tech-Mahindra, Wipro, etc.

Placements

Our placement process is well-structured to aid the students with maximum advantages. The well-deserving students will be able to avail with us:-

- **Jobs -** With the placement process you will be able to have an offer letter in your hand even before you have passed out from the college.
- **Authentic employers -** When you are planning to explore the employment industry, you come across several employers. There are some authentic and some forged. With the stringent process, we make sure that authentic employers arrive at the campus for recruitment purposes. Hence, you are on the receiving end of the finest experience.
- **Assistance -** Whether it is the interview, the group discussion, or the written test, you will always be guided by our team of professors, teachers, and mentors. You will be able to learn a lot in the procedure and be industry-ready.

The Process

The placement process is an opportunity for you to avail that job opportunity you always wanted to. With it, you will be able to get hold of the position which opens avenues for greater success in the course. The stepwise procedure consists of:-

- **The Affirmation -** The affirmation involves our communication with the Company and vice-versa to confirm their arrival for campus recruitment. A screening process from both the ends is ensued in the same.
- **Allotting the date -** A date is concluded by the recruiter and us together, for the conduction of the initial screening.
- **Pre-Placement talk -** The students are made aware of the job profile, the position, and the skill set the company is looking for. They are also provided information about the brand they will be working for, the position for which the students are appearing, and the number of vacancies the company has. The pre-placement talk provides the students with the needful information for the aspiring candidates from the company.
- **Screening -** The screening consists of a plethora of methods. Some companies shortlist the students based on their CVs. There are others that make the students appear for a written test. And, there are still others that have psychometric tests, online tests, and group discussions lined up for the students.
- **Interviews -** This is the pre-final step to avail a job with the employer. A plethora of questions are asked in the interview to select an employee from the list of shortlisted candidates. This again depends on the employer to take the course best suited for them. Some go for the Skype interviews. There are others who pursue telephonic interviews. And, there are still the ones who take the personal interviews. The students simply need to be prepared for each.
- **Announcement -** An announcement with regards to the selection of the students is made in this step by the recruiters.
- **Official communication -** The company then communicates about the same to the selected students through the offer letters sent to them.

Welcome to the onset of a new journey called JOB- it's worth the entire endeavour you have put up in these years of your college. The experience will always be that primary root enriching you with promising accomplishments. Best wishes from the Raisoni Group of Colleges to you!

What does the internship include?

It is a well-planned work experience associated with enhancing the personal development and academic career of a student. The management and direction for the same is pursued by the expert in the field in the industries. The students are on the receiving end of live exposure. They are able to witness the problems in the work field and find its first-hand solutions all by themselves.

We at the GHRCEM have the following norms taken care of in the realm of internship

- **Compulsory -** We completely believe in the significance internship has in framing the career growth of the students. Thus, in accordance with our curriculum, it is mandatory for all the students to pursue summer internships in the 6th Semester.
- **Tenure -** The tenure of this internship is so designed that it encompasses the finest of work experience, enhancing the skills and knowledge about the subject. It is for a period of one month.
- **Post internship -** Post the internship, the students are required to pursue a presentation in the Department which is required to be in a proper format. Grades/marks are provided to the students pertaining to their presentation and findings.
- **Certification -** The certificate that the students gain after the completion of the internship is of immense significance. It portrays their work experience and is provided by the industry.
- **Job benefits -** There have been many instances wherein after completion of the internship, the students have job/service offers from the same industry. Yet again, the industry-based project is offered to the students in the final year on the basis of the internship to the students. The latter is indispensable for their better grades. There are also the MoUs or the Memorandum of Understanding which directs the students to pursue better. It gives them ample benefits in the field with priority.
- **Workshops -** Around the year, industry workshops are held to foster the talents of the students and to make them proficient pertaining to their subjects.

At GHRCEM every step you take brings you closer to your accomplishments.

Student Testimonials

Ankita Murthy

GHRCEM has enriched my education. It will always be the best experience of my life. For any institute, it is the faculty who is the pillar of strength and guidance, & GHRCEM faculty perfectly exemplifies this pillar. The best aspect is the support we received to step into the challenging world outside of this institute from them. During the course, we were exposed to a plethora of technical and managerial fronts in there, making learning easier and more promising. Presently, I am working in an IT firm. I have realised even more how well I have been groomed to stand tall amidst challenges and continue on my path to success.

Pooja Parkhi

Life at GHRCEM is unique. Here the studies are well balanced with co-curricular activities which ensure the overall development of the students. The expert team of professors is well-versed in their subjects and provides excellent technical knowledge to the students. With the state-of-the-art infrastructure of the college, we have been able to get the latest in innovative knowledge as well. Amidst all the features, what sets the GHRCEM apart is that we the students have been able to get, the more abstract skill sets like communication, leadership skills, and teamwork. It is the latter which are the absolute necessity for future success.

Urvaksh Tavadi

Unparalleled opportunities and experience are GHRIET for me. At every step, I have been fortunate to interact and gain lessons with some really different and motivated set of minds. They were my batch mates, the faculty, the guest lecturers, and the professionals. That one aspect that I imbibed and will be the torch bearer of my life - will always be the rationale to make decisions for business and administration.

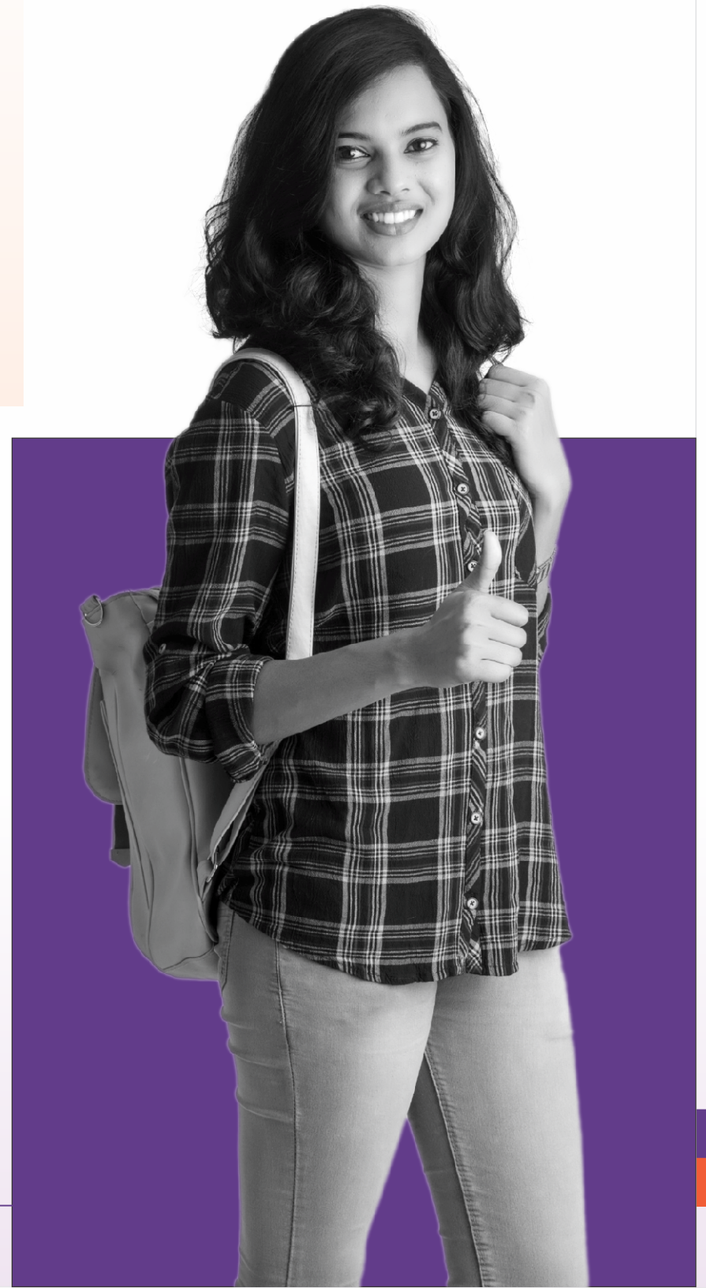

Saloni Tiwari

Diversification of knowledge is a key parameter here. The courses, expert lectures, industrial visits, and the plethora of co-curricular activities enhance our knowledge in the technical field, along with the lifelong activities in the institute. The congenial environment here has given me ample opportunities to participate in many activities and groom my personality. This has always been the place for me, where I witnessed seniors and juniors working together diligently to bring accolades for their college in national-level competitions. The environment of our college proves to develop us as an expert in the highly competitive world.

Sudikha Ghai

I have learned and imbibed in GHRCEM. As a student of Computer Science and Engineering, the college has provided me with a wide arena of the field. This enabled me to learn something new in every subject. With the study environment provided here, it becomes seamless for us to learn better. It inculcates a spirit to stand out amidst the talented and hard-working students. What amazes me here is the variety of co-curricular activities that the institute has to offer. Thus, compelling every student to explore and pursue her talents. The institute always manages both the facets of academics and co-curriculars with extreme excellence. The students find themselves in a pool of never-ending opportunities, technical and otherwise here.
