VISION & MISSION OF THE INSTITUTE

VISION

To achieve excellent standards of quality education by keeping pace with rapidly changing technologies & to create technical manpower of global standards with capabilities of accepting new challenges

MISSION

- Our efforts are dedicated to impart quality and value based education to raise satisfaction level of all stakeholders.
- Our Strength is directed to create competent professionals.
- Our endeavor is to provide all possible support to promote research & development

VISION & MISSION OF THE DEPARTMENT

VISION

To offer high quality undergraduate and a post graduate programs, to train the students to match global standards in different aspects of computing discipline.

MISSION

- The mission of the department is to educate students and enhancing technical skills in the areas of computer science by providing best practices of teaching learning process for careers in software industry, higher education & research.
- To promote research based projects / activities in the emerging areas of technology convergence.

About the Department

The Computer Science and Engineering program is an intellectually challenging discipline. The BE CSE department of GHRIET- the best computer science engineering college in Nagpur mainly equips its students with undergraduate and postgraduate level expertise and appropriate skills in the field of computer science.

The BE CSE department aims at nurturing a conducive upbringing for erudition and research by the use of appropriate computing technologies in its everyday activities. Some of the areas of study are Data Structure, Algorithms, Database Systems, Operating Systems, Data Science and AI. Online MOOCs (Swayam, NPTEL, Coursera etc) are also included in earning credits and reflected in grade card. Record numbers of jobs opportunities are there in computer science-related field.

Workshops and Seminars are an integral part of our academics programs and conducted regularly. It acts as means for students to deliberate on the subject from technical to current affairs and even NPTEL videos are screened. As a need of industry, programming skills are being covered and evaluated more on practical oriented. Student-initiated clubs are intended to generate curiosity in young minds and promoting intelligent designs to help to solve some of the problems in our daily life. Organizing and conduction technical events like Coder club, Code Puzzle, hackathon, etc. will enhance and showcase the coding abilities of the students

Program Outcome of the Department

Engineering Graduates will be able to:

1. **Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
2. **Problem Analysis:** Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
3. **Design/Development of Solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
4. **Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
5. **Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modelling to complex engineering activities with an understanding of the limitations.
6. **The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
7. **Environment and sustain ability:** Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
8. **Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
9. **Individual and team work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multi-disciplinary settings.
10. **Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
11. **Project management and finance:** Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multi-disciplinary environments.
12. **Life-long learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

Program Specific Outcome of the Department

PSO1 : Apply fundamental knowledge of Computer Science and Engineering subjects, Identify, Formulate & Solve problems of various types of integrated computer based systems as well as to interpret and synthesize the experimental data leading to valid conclusions.

PSO2 : Design and code engineering problems using programming skills.

PSO3 : Make use of acquired technical knowledge for qualifying in competitive examinations at various levels

Programme Educational Objectives of the Department

PEO-I : **Preparation :** To prepare students to succeed in employment / profession and /or to pursue post graduate and research educations in Computer Science & Engineering discipline in particular and allied Engineering discipline in general.

PEO-II : **Core Competence :** To provide students with a solid foundation in mathematical, scientific and engineering fundamentals required to formulate, analyse and solve engineering problems requiring knowledge of Computer Science & Engineering.

PEO-III : **Breadth :** To prepare students with engineering breadth to innovate, design, and develop software products and to contribute in providing solutions related to multi-disciplinary real life problems.

PEO-IV : **Professionalism :** To inculcate in students professional and ethical attitude, effective communication skills and team work to become a successful professional.

PEO-V : **Learning Environment :** To provide students with an academic environment that makes them aware of excellence and Lifelong learning in emerging technologies.

Chairman's Message

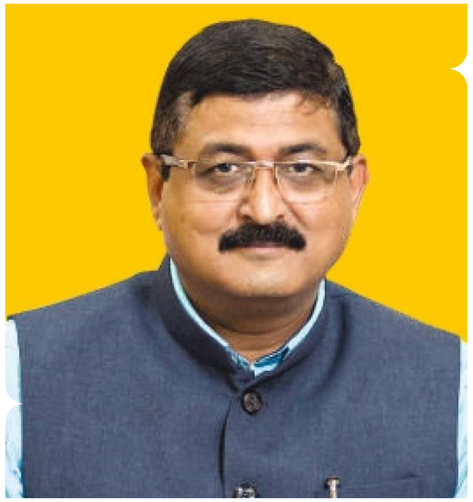

Shri. Sunil Raisoni
Chairman, RGI

Innovation is the cornerstone of progress in today's world. At RGI, we are dedicated to continually evolving our educational programs to ensure they remain relevant to our students, industry partners, and stakeholders. Our primary goal is to enhance student employability by offering an enriching experience that equips them to face future challenges. By actively collaborating with the corporate sector, we aim to open up diverse opportunities for our students, ensuring they are well-prepared for successful careers.

Our vision is for GHRCEMN to play a pivotal role in shaping tomorrow's leaders, cultivating individuals who will make a global impact. We are committed to providing the nation with highly trained, inquisitive minds who are persistent in transforming both their own lives and those of their organizations, contributing to national progress. We wish our graduates every success in their future endeavors.

Director's Message

Dr. Vivek Kapur
Director, GHRCEMN

At GH Raisoni College of Engineering and Management, Nagpur, our mission is to create an exceptional learning environment and provide top-tier resources to produce the finest engineers. The rapid pace of innovation and technological change requires educational institutions to constantly update and evolve. At GHRCEMN, we embrace this challenge, focusing on preparation, foresight, and strategic planning to guide our students towards success.

Our state-of-the-art infrastructure, coupled with experienced faculty, a well-planned curriculum, and Outcome-Based Education, ensures that our students not only gain knowledge but also become skilled and adaptable engineers. We are committed to their growth, both in the present and for the future.

HOD's Message

Dr. Sonali Ridhorkar
HOD

It is with great pleasure and excitement that I invite you to explore the 2024 edition of "TECHNOPLEXUS 24," the magazine of the Computer Science and Engineering and Information Technology Department at GH Raisoni College of Engineering and Management, Nagpur. This edition marks a significant milestone as our department's magazine has truly come into its own, resonating within and beyond our academic community.

The content of this magazine has matured into something truly beautiful, offering valuable insights that will enrich the minds of students and faculty alike, and easing their academic and career paths. "TECHNOPLEXUS 24" aims to enlighten, engage, inspire, and entertain a diverse audience, including alumni, parents, students, and staff. Through its compelling narratives, it reflects a relevant and authentic image of our department.

Each edition of "TECHNOPLEXUS" is a celebration of our growth, creativity, and collective aspirations. It showcases the wide range of talents within our team, from writing and editing to design. I commend the entire "TECHNOPLEXUS" team for their dedication and hard work in bringing this edition to life.

Ms. Hemlata Dakhore

Bringing out 'TECHNOPLEXUS' has been an exciting endeavor, filled with creativity, dedication, and teamwork. This edition reflects the enthusiasm and commitment of those who contributed, making it a remarkable compilation of ideas and insights.

The process of curating articles and visuals was no easy feat, yet the effort put in by the team made it all worthwhile. From brainstorming fresh perspectives to refining every detail, every step was taken with the intent to create something truly engaging. Challenges were met with perseverance, and the result is a magazine that speaks for itself.

A special note of gratitude to Dr. Vivek Kapur, Director, GHRIET, and Dr. Sonali Ridhorkar, HOD, CSE Department, for their constant guidance and support. Their encouragement has played a key role in shaping this publication.

The incredible team behind this edition deserves all the appreciation for their dedication and hard work. Now, the magazine is ready to take center stage—so let the pages unfold their story.

Happy Reading!

Glimpses of MOU

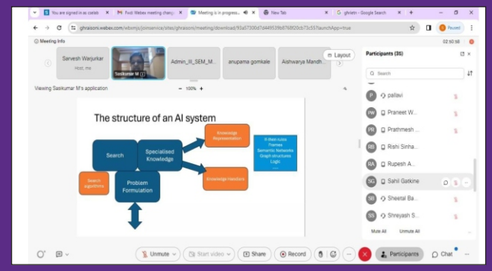

Two days International Conference on Advance Communication, Energy & Big Data (ICACEBD-24)

G H Raisoni Institute of Engineering and Technology (GHRIET), Nagpur, has organized International Conference on Advance Communication, Energy & Big Data (ICACEBD-24), scheduled for the 15th and 16th of March 2024.

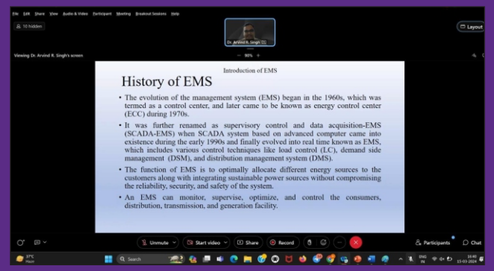

Dr. Rajendra Kakde, AICTE, Advisor was the chief guest for inaugural function of the conference.

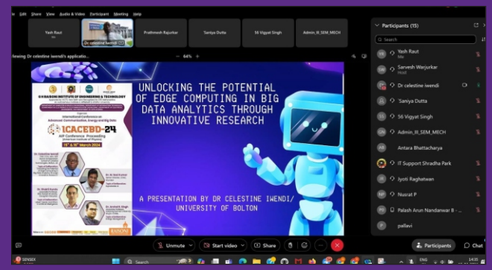

Keynote Speakers

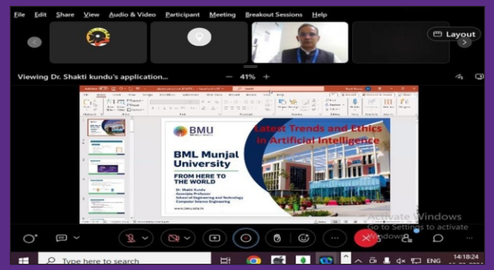

Dr. M. Sasi Kumar, Senior Director, CDAC, Mumbai, "Topic of Deliberation : Explainable AI"

Dr.Celestine Iwendi, Professor, University of Bolton UK, "Topic of Deliberation: Unlocking the Potential of Edge Computing in Big Data Analytics through Innovative Research"

Dr.Arvind Singh, Associate Professor, Department of Electrical Engineering, Hanjiang Normal University, South Beijing Rd, Shiyan, CHINA " Topic of Deliberation: Energy Management"

Dr. Shakti Kundu, Associate Professor, School of Engineering & Technology, Computer Science Engineering at BML Munjal University (BMU), Gurugram, Haryana, India "Topic of Deliberation: Latest Trends & Ethics in AI"

Achievements in NPTEL

Faculty Achievements Session:2023-2024

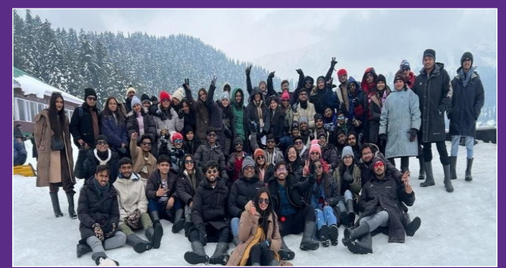

- Dr. Sonali Ridhorkar (HOD, CSE), works as Session Chair at the International Conference On Technological Innovations & Applications In Industry 4.0: Challenges And Way Ahead (Ictia-2024), organized by the Department of Mechanical Engineering of St.Vincent Pallotti College of Engineering & Technology, Nagpur. The conference will be held in a hybrid mode on 24th - 25th April 2024.
- Dr. Sonali Ridhorkar (HOD, CSE), deliver an expert lecture on "Block-chain studies", organized by E&ICT Academy, IIT Roorkee on 20/01/2024
- Dr. Sonali Ridhorkar (HOD, CSE) works as a Resource person and delivers an expert talk on the subject "Importance of Artificial Intelligence in Cyber Security" for a short-term training program on Artificial Intelligence and Machine Learning, scheduled on 03/02/2024 to 03/02/2024 in online mode, organized by the Department of Computer Science and Engineering, Rajiv Gandhi College of Engineering, Research & Technology, Chandrapur.
- Mrs. Minakshee Chandankhede Successfully Completed the NPTEL certification and scored Elite Silver for the subject Effective Engineering Teaching in Practice
- Dr. Sonali Ridhorkar (HOD, CSE), contributed as Reviewer in the International Conference on Machine Learning Algorithms (ICMLA 2024) held on Feb, 23rd - 24th, 2024 at Chitkara University, Himachal Pradesh, INDIA
- Dr. Sonali Ridhorkar (HOD, CSE), contributed as a Reviewer for the First IEEE International Conference on Data Science and Network Security (ICDSNS-2023) Organized by Kalptaru Institute of Technology, Tiptur, on 28th - 29th July 2023
- Dr. Pragati Fatinge published an IEEE transaction paper on the topic "Development of Smart Cup for Monitoring Post stroke Patients"
- Dr. Pragati Fatinge published an IEEE transaction paper on the topic "Solar Power Generation Technique and its Challenges - A Comprehensive Review"
- Mr. Vikas Singh Successfully Completed the NPTEL certification and scored Elite Silver for the subject Programming in JAVA
- Mrs. Hemlata Kosare Successfully Completed the NPTEL certification for the subject Operating System Fundamentals
- Dr. Bhushan Manjre, contributed as a Reviewer for ICACEBDA-24
- Dr. Pragati Fatinge, contributed as a Reviewer for ICACEBDA-24
- Ms. Pushpa Birha, contributed as a Reviewer for ICACEBDA-24

Articles

Life won't always go according to our desired plan, but that doesn't mean that what is taking place is not supposed to take place. Life can be completely unexpected in the most wonderful way but what's meant to happen will definitely happen. And sometimes that's not what you want but it doesn't meant that it's not best for you, because it is. At the time you experience things you might not appreciate what's going on because you might think that the natural laws are against you, but really, over time you will realise that everything that takes place is for your growth. It's for your wellbeing. It's for you. What's meant to be will be - and this is the truth of existence. You need to accept that sometimes your wishes won't be granted but that's because something better is written for you and you need to accept that your plan may not always work because there's a plan much bigger than you that incorporates us all. And you need to accept the most important thing of all that what doesn't break you only makes you stronger, and that's what the lesson should be. You must find strength within your scars, and you must search for light in the dark and if you can't find it you must become the light. And you must keep things go on as it is. You must keep going.

When you say that you're 'working on' yourself, what do you mean? Because if it's continuing in the same routine that you've had for years in hope that you will find what you're looking for within then you're doing it wrong. If you're working on yourself then truly work on yourself. Start a journal. Sleep for at least 8 hours. Begin saying 'no' to things that you don't want to do and make more time for things that you do. And if you don't know what you want then brainstorm. Start something new and make effort to grab a coffee with your friend, and call your mother to have that difficult conversation that you've been putting off for so long. Do some trauma work. Focus on ways to ease your anxiety. Go for evening walks. Listen to health and positivity podcasts. Watch comedy skits. Read self-help books and stories that inspire you. Listen to uplifting music. Watch great movies. The point is-be in motion. It's not enough to continue the same routine that you've had for the last few years. Because working on yourself requires effort. It requires change. It requires you to step out of your comfort zone and try new things. It requires you to talk about the difficult stuff, the scary stuff, the painful and heart- breaking stuff. Because if you want to grow then you truly need to work on yourself and for that you need to do something, anything, rather than nothing at all.

जगाकर के अपने मे भीतर का बालक यूं अंदर ही अंदर मै हट पे गया। उठा, फिर दौडा, फिर छत पे गया।

सारी दुनिया की धोती उठाकर मै लाया, रसोई से रोटी उठाकर। वो रोटी का दाना जब तन पर गया, जाते ये सवाल मेरे मन में गया कि होगा इस रोटी का वजन कितना? लगा होगा इसमें लोगों का धन कितना?

किसी माँ ने जब गहनों को बेचा होगा, उसके बच्चे ने तब उसको देखा होगा। जब आसमान में बादल भी होंगे काले पडे, उसके बाप के पैरों पर छाले पडे।

जब अपनो ने सिलों को काटा होगा, तभी न जाकर के आटा होगा। जब माँ ने सिलों को काटा होगा, तब सिलों का कीडा भी रूठा होगा। जब बैलों को डंडे पडे होंगे, तब दोनों के पैर ठंडे पडे होंगे।

जब किसी माँ ने तन को भी बेचा होगा, तब जाकर के रोटी को सेंका होगा। मेरे छोटे से सवाल का कोई जवाब मेरी लिखावट का देगा क्या कोई हिसाब?

Never give up is the attitude that one should carry and live their life with, no matter what the situation is. One should keep struggling and fighting with the odds and should wait for the day when they will find what they have actually been looking for in their life.

Failure is not an option for anyone. Even though you have failed in any process, you should stand up and do it again, but in any case, you should never give up on your dreams.

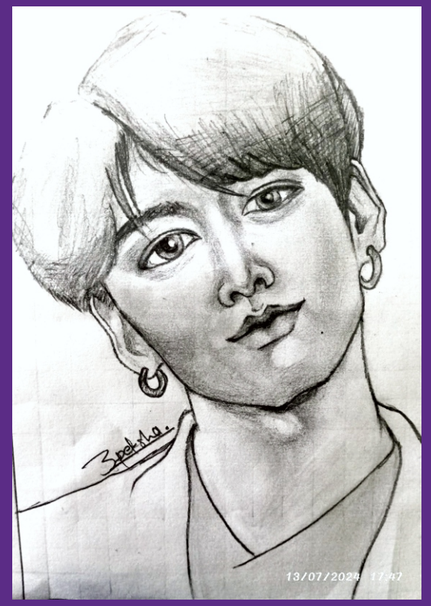

One should never give up on his/her goals, and one should never give up on a struggle that he/she is doing for attaining something which isvery important in life. This attitude has great importance in our lives. To never give up is a virtue that not many people possess. Let check out how this virtue helps us in our life!

One point that every human being should keep in his/her mind is that nobody in this entire world is perfect and no one would ever be. Everyone makes mistakes, and it isn't the mistakes that make you better or worse than others; it is your behavior after those mistakes. If you correct those mistakes and achieve your goal, then you are the hero, and if you give up on your dreams just for a mistake that you made, then you never had any goal or dream on which you were working in the first place.

- One should always remember that even if you are working hard for your goals, there would always be a person who is working even harder for the similar goals and it is on you whether you want him/her to win or you will fight hard and win it for yourself.
- Success is not everyone & cup of tea. It requires lots of sleepless day and nights, lots of sweat and a great amount of hard work and it can only be achieved if you never give up on the small failures that you will face in the process.

  Keeping all the above points in mind, always make sure that no matter what the situation is, you never give up in your life.

Perspective. A way of looking at a situation or a person by one's thoughts. Perspective might be very beautiful but it can also dangerous. Ever thought of running away, instead of facing the crisis with a gentle yet unwavering smile? Many do. Every human being, no matter of what specific age, runs away from the crisis. Some have this perspective of unhinged behavior, whereas some are afraid of facing their own soul. A perspective where you can see what is good and what the contrary is. Despite of that we still look at the consequences of the situation not thinking about how we can change this little perspective in our mind. A human may not be able to think in good way all the time, but the perspective should be always positive. Knowingly doing things with all the courage giving you unwanted results are more uprising to satisfy one's soul.

A mere example of a peaceful yet problematic Rain, people who has to work or attend the outdoor meetings takes rain as a crisis of not being able reach at their destination safely or in the best way possible. Whereas Rain, which is beneficial to many farm workers as well as sea workers which they wait to pour for months, couldn't be less than a giant wheel of happiness. One's perspective, either beautiful or bad, changes their way of life. Way of approaching, accepting and changing depends on the perspective. A perspective of being happy in the worst condition ever or seeking sorrows in the comfiest surrounding, one who understand can only change their life within a span of seconds. Today you are at your bottom, but it might not be the bottom but the stage where you are being tested. It is us and our perspective we live within. Change the perspective and everything becomes exciting. We are just tangled withing the perspective of our own boundaries created by us. When you unravel these boundaries by changing your point of view, nothing can more precious than your own thoughts. A Japanese word called 'Kenshou' describes about one's enlightenment when their own nature is seen for what it truly is. Your actual behavior and your perspective collide and reform the decision. One should always be ready to accept the things are not going to be the same way for everyone, not even the one you think has got everything you lack. This is perspective, This is where we have to live within. Whether the most extraordinary or the most critical, You and I can only decide.

STEP IT UP TO ACHIEVE OUR GOAL.....!

In the realm of personal and professional growth, setting goals is a crucial first step. However, merely establishing objectives isn't enough; we must also be prepared to "step it up" to ensure their successful attainment. This article delves into the essential strategies and mindset shifts required to elevate our game and achieve our aspirations with unwavering commitment and passions.

Defining Specific, Measurable, Achievable, Relevant, and Time-bound (SMART) Objectives. Aligning Personal and Professional Goals with Core Values and Long-term Vision. Breaking Down Goals into Actionable Milestones and Tracking Progress. Recognizing the Difference between Short-term and Long-term Goals and Setting a Balance. The Art of Goal Prioritization: Identifying the Most Impactful Objectives. The Role of Realistic Expectations in Setting Attainable Goals. Overcoming Fear of Failure and Embracing the Learning Process. Seeking Feedback and Support from Mentors, Coaches, and Peers. The Power of Goal-setting in Boosting Motivation and Self-discipline. Reflecting on Past Successes and Challenges to Inform Future Goal-setting

The Science Behind Positive Thinking and Its Impact on Personal Growth. Harnessing the Law of Attraction: How Positive Visualization Attracts Success. Cultivating an Optimistic Mindset: Overcoming Negative Self-talk and Limiting Beliefs. The Importance of Gratitude and Appreciation in Nurturing Positive Thinking. Visualization Techniques for Enhancing Focus, Confidence, and Determination. The Role of Positive Thinking in Stress Reduction and Emotional Well-being. Inspiring Stories of Individuals Who Overcame Adversity through Positive Thinking. The Power of Positive Affirmations: Simple Statements that Shape Our Reality. Collaborating with Like-minded Individuals to Foster a Culture of Positivity.

In our pursuit to achieve our goals, it is crucial to recognize the importance of consistent action and persistence. By breaking down our objectives into smaller, manageable tasks and dedicating time each day or week to work on them, we can make significant progress towards our aspirations. Developing persistence is equally vital, as it allows us to stay motivated and focused even when faced with challenges or setbacks. When obstacles arise, it is essential to maintain a growth mindset and view these experiences as opportunities for learning and improvement. Additionally, having a supportive network can greatly impact our journey towards success. Surrounding ourselves with people who believe in us, encourage our efforts, and provide constructive feedback can help us stay committed to our goals and maintain the necessary motivation and determination to ultimately "step up our game" and achieve what we set out to accomplish.

In today's fast-paced world, the ability to adapt and grow is crucial for both personal and professional success. Fostering a growth mindset is the key to embracing challenges and continuously striving for improvement. This approach to life encourages individuals to view obstacles as opportunities for learning and development, rather than insurmountable barriers. By embracing a growth mindset, individuals can unlock their full potential, leading to increased resilience, motivation, and overall satisfaction in life.

Achievement and progress are essential components of a fulfilling life, as they not only validate our efforts but also motivate us to reach greater heights. Celebrating these accomplishments, no matter how small, is crucial in maintaining a positive outlook and reinforcing our belief in our capabilities. Recognizing and appreciating our achievements not only boosts our self-esteem but also encourages us to continue striving for excellence. By embracing the rewards of achievement, we foster a culture of growth, resilience, and satisfaction, ultimately leading to a more enriching and purposeful life.

Goal attainment is an ongoing journey that requires continuous reflection and adjustment. As we navigate through life, our priorities, interests, and circumstances may change, and it is essential to adapt our goals accordingly. Reflecting on our progress allows us to identify areas where we excel and those that need improvement. By acknowledging our achievements and challenges, we can make informed decisions about adjusting our goals to better align with our evolving aspirations. Embracing this ongoing process of reflection and adjustment ensures that we remain engaged, motivated, and focused on our path towards personal and professional growth.

Success is not merely a personal accomplishment but also an opportunity to inspire and uplift others. When we achieve our goals, we create a ripple effect that encourages and motivates those around us. Paying it forward by sharing our experiences, knowledge, and support can have a profound impact on the lives of others. By inspiring others to pursue their dreams and ambitions, we contribute to the betterment of society as a whole. This act of giving back not only strengthens our sense of purpose but also fosters a culture of collaboration and mutual growth, ultimately leading to a more connected and supportive world.

- **The Power of Inspiration :** Inspiring others is an essential aspect of personal growth and development. When we share our experiences, challenges, and successes, we create a sense of connection and understanding. This, in turn, encourages others to believe in their abilities and strive for their goals. As we inspire others, we also inspire ourselves, fostering a continuous cycle of motivation and progress.
- **Paying It Forward :** The concept of paying it forward involves taking the help, support, or opportunities we have received from others and passing them on to someone else. By doing so, we create a chain reaction of kindness and generosity that benefits multiple people. Paying it forward not only helps others but also reinforces the idea of gratitude and empathy, which are crucial for a harmonious society.
- **The Ripple Effect:** The ripple effect of success occurs when the positive impact of inspiring others and paying it forward extends beyond the initial interaction. For instance, when someone is inspired to pursue their dreams and eventually achieves success, they, in turn, may inspire others. This cycle continues, creating a ripple effect that spreads across communities and even nations.
- **Building Stronger Communities :** Inspiring others and paying it forward contribute to the creation of stronger, more resilient communities. When individuals come together to support, encourage, and uplift one another, they foster a sense of belonging and shared purpose. This collective effort can lead to innovative ideas, increased productivity, and a heightened sense of well-being for everyone involved.
- **Personal Growth and Development :** Engaging in acts of inspiration and paying it forward can also lead to personal growth and development. As we help others achieve their goals, we gain valuable insights into our strengths and weaknesses. This self-awareness enables us to overcome our limitations and become better versions of ourselves

To seamlessly transition into discussing the importance of "stepping it up" to achieve our goals, let us first acknowledge the significance of determination and perseverance in our journey towards success. Just as an athlete must push their limits to excel in their sport, so must we strive to overcome challenges and obstacles in order to accomplish our objectives. By embracing this mindset, we can effectively navigate the path towards realizing our aspirations and ultimately achieve our desired goals.

In conclusion, the phrase "step it up" serves as a powerful reminder of the determination and effort required to achieve our goals. It encourages us to break free from complacency and embrace the challenges that come our way. By pushing ourselves beyond our comfort zones and committing to consistent, purposeful action, we can unlock our full potential and experience the satisfaction of turning our dreams into reality. So, let us remember to "step it up" and keep striving for greatness, as this relentless pursuit of success is the key to unlocking our full potential and leading fulfilling lives.

"It is not enough to take steps which may someday lead to a goal; each step must be itself a goal and a step likewise."

Raisoni: A Student's Perspective

In the heart of Raisoni, where dreams take flight,
Three blocks stand tall: A, B, and C in sight.
As Karan, a third-year IT engineer,
I've found my place, my purpose clear.

IT Nexus, our forum, where I lead with pride,
Vice President, helping peers side by side.
In the atrium, beneath the giant fan,
We gather, laugh, and share our plan.

Datta's canteen, a feast for the senses,
Where friendships grow beyond pretences.
Jitu Bhaiya's Xerox, our saving grace,
For last-minute prints, a familiar face.

Director Vivek Kapoor, guiding our way,
Inspiring us to seize each day.
From classrooms to labs, we learn and grow,
In Raisoni's embrace, our futures glow.

So here's to Raisoni, our beloved space,
Where cool minds thrive at their own pace.
A chapter of life we'll fondly recall,
As we stand proud and give it our all!
