First Year Engineering Department

Report on the Session "Importance of Communication Skills" by Mr. Tushar Muley

As part of the First-Year Induction Programme **Prarambh 25**, a highly engaging session on "Importance of Communication Skills" was conducted by **Mr. Tushar Muley**, Chief Advisor Training & Placement, Global Education Ltd. The session was attended by around 190 students and faculty members, who gained valuable insights into how communication skills form the backbone of personal and professional success.

Mr. Muley highlighted that technical knowledge alone is not sufficient in today's competitive environment; effective communication, confidence, and interpersonal skills play an equally important role in shaping careers. He shared practical examples and real-life experiences to help students understand how communication influences teamwork, leadership, and placements. His interactive style kept the audience engaged throughout, leaving them motivated to hone their skills from the very beginning of their engineering journey.

On this occasion, Mr. Muley was felicitated by **Mr. Amir Virani** for his contribution in guiding the students. The session was smoothly anchored by **Ms. Aninya Sarkar**, who ensured its lively flow and interaction.

We express our heartfelt gratitude to Director **Dr. Vivek Kapur** for his constant encouragement and vision in arranging such impactful sessions. Special appreciation also goes to the student volunteer team for their tireless support in ensuring smooth organization.
