Department of Computer Science and Engineering

Value Added Program on Python Programming for Beginners to intermediate with Hands-on Projects

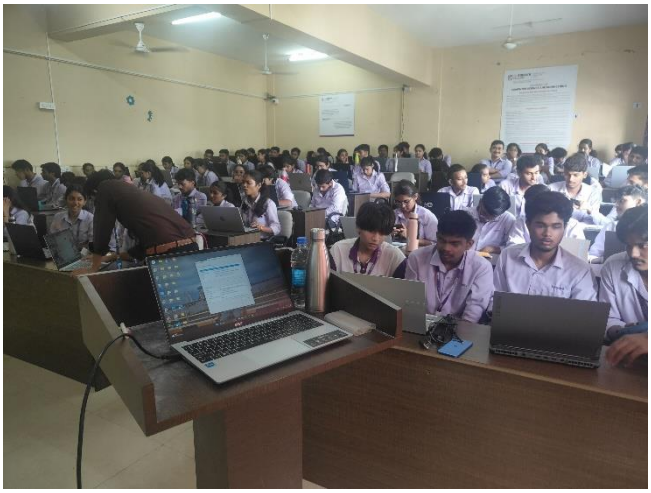

17/08/2026

Department of Computer Science and Engineering of G H Raisoni College of Engineering & Management, Nagpur had organized Five days' **Value Added Program on Introduction to Java Programming Python Program for Beginners to intermediate with Hands-on Projects for students of Second Year CSE Section A and B from 10th August to 14th August 2026.** Total 115 students attended and benefited from the session.

Expert for the session are Mr. Santosh Selokar, Founder, SSIT Pvt. Ltd, Nagpur and Mr. Tushar Gajbhiye, Trainer, SSIT Pvt. Ltd, Nagpur. Value Added Program is conducted to enhance the programming skills and practical competencies of students. The program was designed with the objective of providing participants with a strong foundation in Python programming and enabling them to develop simple real-world applications. The program provided participants with a structured introduction to Python programming, beginning with basic syntax and gradually progressing toward functions, file handling, exception handling, Object-Oriented Programming, modules, packages, and mini-project development.

The hands-on nature of the workshop helped bridge the gap between theoretical programming concepts and practical implementation. Participants were provided opportunities to write, execute, test, and modify Python programs throughout the program. The program focused on learning Python through a combination of conceptual understanding, demonstrations, hands-on coding exercises, practical applications, and a mini-project. Students actively participated in the practical sessions by writing Python programs, executing code, identifying errors, modifying programs, and developing small applications based on the concepts covered.

Students learning is evaluated by module-wise programming task. Overall, the program served as a useful skill-development initiative and supported the objective of enhancing students' practical programming competencies. Value Added Program was coordinated by Mrs. Priyanka Gonnade, Assistant Professor, CSE under the guidance of Dr. Sonali Ridhorkar, HOD CSE , Dr. Achal Shahare, Director, GHRCEM, Nagpur and Dr.Vivek Kapur, Campus Director, Shradha Park, Nagpur.
